

Georgia

The proposed \$1.05 billion reduction in Medicare Part A skilled nursing facility expenditures on a nationwide level has a substantial impact on the local, state, and national economies. The estimated economic impact for Georgia is a reduction of \$34,566,482 in business activity, a reduction of \$16,870,033 in labor income, and a loss of 552 jobs.

The following schedule illustrates the direct, indirect, and induced impact of this cut in reimbursement on the state of Georgia.

Economic Impact of Medicare Nursing Facility Payment Cutback Fiscal Year 2010

Georgia				
	Direct	Indirect	Induced	Total
Business Activity Impacts (\$)	20,529,642	4,884,110	9,152,730	34,566,482
Income Impacts (\$)	12,363,161	1,560,201	2,946,671	16,870,033
Employment Impacts (Jobs)	440	35	77	552

Direct Effect represents the impact (e.g., change in employment or revenues) for the expenditures and/or production values specified as direct final demand changes.

Indirect Effect represents the impact (e.g., change in employment) caused by the iteration of industries purchasing from industries resulting from direct final demand changes.

Induced Effect represents the impacts on all local industries caused by the expenditures of new household income generated by the direct and indirect effects of direct final demand changes.

Total Impact is the sum of the direct, indirect, and induced effects.

Labor Income is the sum of employee compensation and proprietary income.
