

# Texas

The proposed \$1.05 billion reduction in Medicare Part A skilled nursing facility expenditures on a nationwide level has a substantial impact on the local, state, and national economies. The estimated economic impact for Texas is a reduction of \$108,658,065 in business activity, a reduction of \$52,310,689 in labor income, and a loss of 1,649 jobs.

The following schedule illustrates the direct, indirect, and induced impact of this cut in reimbursement on the state of Texas.

## Economic Impact of Medicare Nursing Facility Payment Cutback Fiscal Year 2010

Texas				
	Direct	Indirect	Induced	Total
Business Activity Impacts (\$)	63,491,957	15,983,237	29,182,871	108,658,065
Income Impacts (\$)	38,446,166	4,904,646	8,959,877	52,310,689
Employment Impacts (Jobs)	1,314	109	226	1,649

Direct Effect represents the impact (e.g., change in employment or revenues) for the expenditures and/or production values specified as direct final demand changes.

Indirect Effect represents the impact (e.g., change in employment) caused by the iteration of industries purchasing from industries resulting from direct final demand changes.

Induced Effect represents the impacts on all local industries caused by the expenditures of new household income generated by the direct and indirect effects of direct final demand changes.

Total Impact is the sum of the direct, indirect, and induced effects.

Labor Income is the sum of employee compensation and proprietary income.

Economic Impact Analysis: Impact Analysis For Planning (IMPLAN) software, Minnesota IMPLAN Group, Inc., 2007 data.

# Texas Congressional District 1

The proposed \$1.05 billion reduction in Medicare Part A skilled nursing facility expenditures on a nationwide level has a substantial impact on the local, state, and national economies. The estimated economic impact for Texas Congressional District 1 is a reduction of \$5,262,640 in business activity, a reduction of \$2,614,646 in labor income, and a loss of 95 jobs.

The following schedule illustrates the direct, indirect, and induced impact of this cut in reimbursement on Texas Congressional District 1.

## Economic Impact of Medicare Nursing Facility Payment Cutback Fiscal Year 2010

<b>Texas Congressional District 1</b>				
	Direct	Indirect	Induced	Total
<b>Business Activity Impacts (\$)</b>	3,489,051	577,444	1,196,145	5,262,640
<b>Income Impacts (\$)</b>	2,090,136	166,121	358,389	2,614,646
<b>Employment Impacts (Jobs)</b>	79	5	11	95

Direct Effect represents the impact (e.g., change in employment or revenues) for the expenditures and/or production values specified as direct final demand changes.

Indirect Effect represents the impact (e.g., change in employment) caused by the iteration of industries purchasing from industries resulting from direct final demand changes.

Induced Effect represents the impacts on all local industries caused by the expenditures of new household income generated by the direct and indirect effects of direct final demand changes.

Total Impact is the sum of the direct, indirect, and induced effects.

Labor Income is the sum of employee compensation and proprietary income.

# Texas Congressional District 32

The proposed \$1.05 billion reduction in Medicare Part A skilled nursing facility expenditures on a nationwide level has a substantial impact on the local, state, and national economies. The estimated economic impact for Texas Congressional District 32 is a reduction of \$3,110,399 in business activity, a reduction of \$1,639,812 in labor income, and a loss of 45 jobs.

The following schedule illustrates the direct, indirect, and induced impact of this cut in reimbursement on Texas Congressional District 32.

## Economic Impact of Medicare Nursing Facility Payment Cutback Fiscal Year 2010

<b>Texas Congressional District 32</b>				
	Direct	Indirect	Induced	Total
<b>Business Activity Impacts (\$)</b>	<b>2,124,566</b>	<b>455,716</b>	<b>530,117</b>	<b>3,110,399</b>
<b>Income Impacts (\$)</b>	<b>1,306,229</b>	<b>157,267</b>	<b>176,316</b>	<b>1,639,812</b>
<b>Employment Impacts (Jobs)</b>	<b>38</b>	<b>3</b>	<b>4</b>	<b>45</b>

**Direct Effect** represents the impact (e.g., change in employment or revenues) for the expenditures and/or production values specified as direct final demand changes.

**Indirect Effect** represents the impact (e.g., change in employment) caused by the iteration of industries purchasing from industries resulting from direct final demand changes.

**Induced Effect** represents the impacts on all local industries caused by the expenditures of new household income generated by the direct and indirect effects of direct final demand changes.

**Total Impact** is the sum of the direct, indirect, and induced effects.

**Labor Income** is the sum of employee compensation and proprietary income.

**Economic Impact Analysis:** Impact Analysis For Planning (IMPLAN) software, Minnesota IMPLAN Group, Inc., 2007 data.
