

# Overview of CMS Nursing Facility Quality Measures

Nursing Facility (NF) Quality Measure (QM) data are computed and updated quarterly by the Centers for Medicare & Medicaid Services (CMS), and are publicly reported on the Nursing Home Compare website (<http://www.medicare.gov/NHCompare/home.asp>). There is generally a three to four month lag between the end date of the target quarter over which the QMs are calculated, and when the QMs are reported on Nursing Home Compare.

The nursing facility QMs are derived from the Minimum Data Set (MDS) and are reported at the facility level. Subject to a number of exclusions, the score for each facility-level QM is computed as the ratio of the sum of eligible residents in the facility with a particular condition to the sum of eligible residents in the facility. The state-level QMs reported below are computed as the unweighted average of available facility-level QMs.

A brief description of each QM is found below. A more detailed snap shot of how the QMs are calculated can be found at: [http://www.qsource.org/NHQI/AppendixA-SnapShotQMDefinitions%20Ver%206\\_toMedQIC110206.pdf](http://www.qsource.org/NHQI/AppendixA-SnapShotQMDefinitions%20Ver%206_toMedQIC110206.pdf).

CMS Nursing Facility Quality Measures		
Measure	Description	Look Back Period
<b>Chronic Care</b>		
Pain	Percent of Residents Who Have Moderate to Severe Pain	7 days
High Risk Pressure Ulcer	Percent of High-Risk Residents Who Have Pressure Sores	7 days
Low Risk Pressure Ulcer	Percent of Low-Risk Residents Who Have Pressure Sores	7 days
Physical Restraint	Percent of Residents Who Were Physically Restrained	7 days
Depression	Percent of Residents Who are More Depressed or Anxious	30 days
Weight Loss	Percent of Residents Who Lose Too Much Weight	30 days
ADL	Percentage of Residents Whose Need for Help With Daily Activities Has Increased	7 days
Bedfast	Percent of Residents Who Spent Most of Their Time in Bed or in a Chair	7 days
Locomotion	Percent of Residents Whose Ability to Move About in and Around Their Room Got Worse	7 days
Indwelling Catheter	Percent of Residents Who Have/Had a Catheter Inserted and Left in Their Bladder	7 days
Incontinence	Percent of Low-Risk Residents Who Lose Control of Their Bowels or Bladder	14 days
UTI	Percent of Residents with Urinary Tract Infection	30 days
<b>Post Acute Care</b>		
Delirium	Percent of Short-Stay Residents With Delirium	7 days
Pain	Percent of Residents Who Had Moderate to Severe Pain	7 days
Pressure Ulcer	Percent of Short-Stay Residents With Pressure Sores	7 days

**CMS Nursing Facility Average Quality Measure Scores by State, 3rd Quarter 2009**
