Looking at data from the federal government, nursing homes are still facing historic job losses while other health care industries have mostly rebounded to pre-pandemic levels.
Nursing homes have lost more than 200,000 workers over the course of the pandemic.
The nursing home workforce is at levels not seen since 1994.

Source: Federal Reserve Economic Data https://fred.stlouisfed.org/series/CES6562310001
Nursing homes added an average of 3,700 jobs per month over the last 9 months. At the current pace, nursing homes would not return to pre-pandemic levels until 2027.
