

Population Health Management Summit for Long Term and Post-Acute Care Leaders

December 9-10, 2019

InterContinental Washington, DC – The Wharf

This summit will bring together LTC/PAC providers, health plans, regulators, and investors for a two-day intensive to explore the ways LTC/PAC providers are driving change and integrating new models of care within their organizations using population health management (PHM) strategies.

With an emphasis on leadership, you will:

- **Discuss the ways in which PHM models are improving quality and outcomes while reducing costs**
- **Learn new strategies to expand and improve your leadership capabilities in PHM**
- **Network with peers and nontraditional partners**
- **Gain a deeper understanding of CMS' view of provider-led PHM efforts**

[Learn more](#) about the summit and plan to join us in Washington, D.C. in December.
