Licensure Term: Assisted Living Facilities

Opening Statement: The regulations were revised in November 2000 and include major changes to the areas of medication administration and special care units for residents with dementia.

Definition: An Assisted Living Facility provides room, board, meals, laundry, assistance with personal care, and other services for not less than 24 hours per week. Assisted living is subclassified according to the

Facility Scope of Care: Assistance with activities of daily living such as bathing, oral hygiene, and grooming may be provided. A Registered Nurse (RN) must provide or supervise care during periods of temporary illness.

Third Party Scope of Care: Home health services may be provided by a certified home health agency.

Admission/Discharge: To be admitted, residents may not require restraints or confinement; have severe senility; or have chronic health conditions requiring extensive nursing care, daily professional observation, or the exercise of professional judgment from facility staff. Residents must be discharged when care "beyond the capabilities and facilities" of the facility is required.

Medication Management: A resident not fully aware of the medications he or she is taking is not permitted to administer his or her own medications. A resident who is aware of the medications he or she is taking may either self-administer his or her own medications or receive assistance with the self-administration of medication by any staff member. Medication must be administered by a RN, LPN or an individual licensed to practice medicine or osteopathy by the Medical Licensure Commission of Alabama to residents for whom self-administration is not feasible, and to those who do not require acute, continuous, or extensive medical or nursing care.

Physical Plant Requirements: Private resident units must be a minimum of 80 square feet and double occupancy resident units must be a minimum of 130 square feet.

Residents Allowed Per Room: A maximum of two residents is allowed per resident

Bathroom Requirements: Bathrooms may be shared and resident rooms may have common toilets, lavatories, and bathing facilities.

Alzheimer's Unit Requirements: Facilities may neither admit nor retain residents with severe cognitive impairments and may not advertise themselves as a "Dementia Care Facility," an "Alzheimer's Care Facility" or as specializing in or being competent for care for individuals with dementia

Staffing Requirements: There must be an administrator, RN consultants, and personal care staff as needed to provide adequate care and promote an orderly operation of the facility. Specifically, there must be at least one staff person for every six residents in the facility at all times.

Administrator Education/Training: Administrators are required to be "well-trained."

Staff Education/Training: number of residents. Staff are required to take a 16-hour course within their first year.

Continuing Education (CE) Administrators must complete six hours of continuing education per year.

Entity Approving CE Program: None

Medicaid Policy and No Medicaid waiver at this time; however, Medicaid waiver coverage is planned for persons with dementia.

Licensure Term: Assisted Living Homes

Opening Statement: Alaska is unique due to its size and sparse population. Providers determine the level of care and services they will provide, but must provide the state with a list of these services. Revised regulations are being drafted and are expected to be published sometime in 2001.

Definition: Assisted Living Homes provide a system of care in a home-like environment for elderly persons and persons with mental or physical disabilities who need assistance with activities of daily living.

Facility Scope of Care: Facilities may provide nursing care, assistance with activities of daily living, intermittent nursing services, and skilled nursing care by arrangement. A licensed

Third Party Scope of Care: Services Not specified.

Admission/Discharge: There are no limits on admission; however, facilities must have a residential services contract in place for each resident. Twenty four-hour skilled nursing care may not last for more than 45 consecutive days. Terminally ill residents may remain in the facility if a physician confirms that needs are being met. At least 30 days' notice is required before terminating a

Medication Management: If self-administration of medications is included in a resident's assisted living plan, the facility may supervise the resident's self-administration of

Physical Plant Requirements: If a room is shared, the regulations require "reasonable

Residents Allowed Per Room: Not specified.

Bathroom Requirements: Not specified.

Alzheimer's Unit Requirements: The facility must provide a safe environment for nurse may delegate certain tasks, including residents with Alzheimer's.

non-invasive routine tasks, to staff.

Staffing Requirements: Not specified.

Administrator Education/Training: An administrator must be at least 21 years of age and have sufficient education and experience in an out-of-home care facility and is subject to a criminal background investigation.

Staff Education/Training: Care providers in non-supervisory roles must be at least 16 years of age.

Continuing Education (CE) Not specified.

Entity Approving CE Program: None

Medicaid Policy and A Medicaid Home and Community Based (HCBS) waiver covers services. A tiered payment system is used to reimburse for services.

Licensure Term: Assisted Living Facilities

Opening Statement: Regulations have been in effect since November 1998. The new licensure category consolidates the previous six licensure categories for residential care institutions (adult care homes, adult foster care homes, supportive residential living centers, supervisory care homes, and unclassified residential care institutions) into a universal assisted living license. This license is subclassified based on size and level of services provided. All facilities are required to comply with resident rights, food service, administration requirements, abuse reporting, and resident agreements. Training requirements will vary depending upon level of care and physical plant requirements will vary depending upon size.

Definition: An Assisted Living Facility is a residential care institution that provides or contracts to provide supervisory care services, personal care services, or directed care services on a continuing basis.

Facility Scope of Care: Facilities may provide personal care services, including assistance with activities of daily living, that can be performed by persons without professional skills or professional training. Facilities may also provide or coordinate intermittent nursing services and the administration of medications and treatment by a licensed nurse.

Third Party Scope of Care: Not specified.

Admission/Discharge A facility must not accept or retain a resident who requires physical or chemical restraints; behavioral health residential services; or services that the assisted living facility is not licensed or able to

Medication Management: Medication administration is permitted by licensed

Physical Plant Requirements: Facilities must comply with all local building codes, ordinances, fire codes, and zoning requirements. Private resident units must be a minimum of 80 square feet and shared resident units must provide a minimum of 60 square feet per resident.

Bathroom Requirements: Shared bathrooms are permitted and there must be at least one full bathroom for every eight residents.

Alzheimer's Unit Requirements: Not specified.

Staffing Requirements: The regulations require that supervisory care services, personal care services, or directed care services consistent with the level of service for which the facility is licensed are to be provided.

Administrator Education/Training: Managers must be at least 21 years of age and be certified as assisted living facility managers.

Residents Allowed Per Room: A maximum of two residents is allowed per resident

Staff Education/Training: All staff must be trained in first aid specific to adults. Caregivers must be at least 18 years of age; be trained at the level of service the facility is licensed to provide; and have a minimum of three months of health-related experience. Assistant caregivers must be at least 16 years of age.

Continuing Education (CE) All staff must complete a minimum of 12 hours of continuing education per year in areas related to: promotion of resident dignity, independence, self-determination, privacy, choice, and resident rights; fire, safety, and emergency procedures; infection control; and abuse, neglect, and exploitation prevention and reporting requirements.

Entity Approving CE Program: None

Licensure Term: Residential Long Term Care Facilities

Opening Statement: There have been no changes to these rules since October 1997. In 2001, the legislature may pass new regulations for "Assisted Living."

Definition: Residential Long Term Care Facilities serve individuals with impaired functioning who do not require hospital or nursing home care and who self-administer

Facility Scope of Care: The facility may supervise and assist with activities of daily living. provide.
Requirements:

Third Party Scope of Care: Home health services may be provided by a certified home health agency.

Admission/Discharge nurses. The facility must not admit or retain residents

whose

needs are greater than the facility is licensed to provide. Residents must be independently mobile; be able to self-administer medications; be capable of understanding and responding to reminders and guidance from staff; not be totally incontinent of bowel and bladder; not have a feeding or intravenous tube; not have a communicable disease; not need nursing services which exceed those provided by a home

Medication Management: Medication administration may not be performed by facility staff. The supervision of self-administered medication is limited to cueing and storage.

Residents Allowed Per Room: A maximum of two residents is allowed per resident

Bathroom Requirements: Shared bathrooms are permitted and there must be at least one toilet and lavatory for every six residents

and

one tub or shower for every 10 residents. Dormitory or communal type bathroom facilities are not permitted.

Alzheimer's Unit Requirements: Not specified.

Staffing Requirements: A full-time administrator must be on the premises during normal business hours. The regulations list specific staffing ratios (e.g., one staff person for one to 16 residents during the day, evening, and night).

Licensure Term: Residential Care Facilities for the Elderly

Opening Statement: Over the next two years the regulations will be restructured and updated based on new legislative mandates and public policy forums. The areas targeting for scrutiny are medication management, staff education/training and unit requirements for residents with Alzheimer's disease and dementia.

Definition: A Residential Care Facility for the Elderly (RCFE) is a housing arrangement chosen voluntarily where 75 percent of the residents are 60 years of age or older and where varying levels of care and supervision are provided, as agreed to at the time of admission or as determined at subsequent times of reappraisal. Younger residents must have needs compatible with

Facility Scope of Care: The facility may provide assistance with activities of daily living, observation and reassessment, postural support that can be released by the resident, and other types of care. Recent revisions clarify "restricted health conditions" that may be cared for without prior department approval so long as the provider complies with the applicable RCFE regulations for that condition. These incidental medical services include administration of oxygen, catheter care, colostomy/ileostomy care, contractures, diabetes, enemas/suppositories, incontinence, injections, intermittent positive pressure breathing machine, stage one and two dermal ulcers and wound care..

Third Party Scope of Care: Terminally ill residents may remain in the facility and receive care from a hospice agency. A facility is only required to comply with the applicable regulations in caring for an individual with the restricted condition.

Admission/Discharge Residents may not be admitted if they require 24-hour skilled nursing care, are permanently bedridden or unable to leave the building unassisted, or have a mental disorder resulting in the inability to benefit from programs offered by the facility.

Medication Management: Facility staff may assist residents with the self-administration of medication.

Physical Plant Requirements: The regulations allow for private or semi-private

Residents Allowed Per Room: A maximum of two residents is allowed per resident

Bathroom Requirements: Common toilets, bathing, and lavatory facilities are permitted.

Alzheimer's Unit Requirements: Secured perimeters are permitted for Alzheimer's or other dementia residents. Facilities may opt to install delayed egress doors or lock perimeters. Approval from the licensing authority is required for licensees

serving this population. New regulations are expected to go into effect in 2001 that will require those facilities which advertise that they specialize in Alzheimer's disease and dementia care to meet minimum training requirements on how to care for these residents. Initial RCFE administrator certification now dedicates four of the required 40 hours to the subject of dementia care. Administrators must also complete eight hours of the required 40 hours of continuing education units on the subject. Direct care staff in these types of facilities must receive six hours of dementia care orientation and eight hours of in-service training per year on the

Staffing Requirements: Facility personnel must be sufficient to provide the services necessary to meet resident needs.

Administrator Education/Training: An administrator must complete a 40+ hour approved certification program (nursing home administrators are other residents. exempt from this requirement); 15 college

or

continuing education units; and have at least one year of experience or equivalent (in facilities with 16-49 residents) or two years of college and at least three years of experience (in facilities with 50 or more residents). Nursing home administrators are exempt from the certification requirement, but are required to take 12 continuing education courses in Residential Care Facilities for the Elderly administrator core curriculum subjects.

Staff Education/Training: Services requiring specialized skills are to be provided by qualified personnel in accordance with recognized professional standards.

Continuing Education (CE) Administrators must complete 40 hours of continuing education every two years in areas related to aging and/or administration.

Entity Approving CE Program: Program Support Bureau

Medicaid Policy and No Medicaid waiver at this time; however, recently passed legislation provides for a demonstration project to test the effectiveness of this type of reimbursement

Licensure Term: Personal Care Boarding Homes

Opening Statement: The regulations have been in effect since 1993. Revisions to the regulations are expected to be made sometime in 2001.

Definition: Personal Care Boarding Homes are residential facilities that make available to three or more unrelated adults, either directly or indirectly through a provider agreement, room and board and personal services, protective oversight, and social care due to impaired capacity to live independently, but not to the extent that regular 24-hour medical nursing care is required.

Facility Scope of Care: The facility must make available, either directly or indirectly through a provider agreement, at least the following: a physically safe and sanitary environment; room and board; personal services; protective oversight; and social care, sufficient to meet the needs of the residents.

Third Party Scope of Care: Facilities may choose to contract with home health agencies for services beyond what they are able to

Admission/Discharge A facility may not admit or keep any resident requiring a level of care or type of service which the facility does not provide or is unable to provide, but in no event may admit or keep a resident who: is consistently, uncontrollably incontinent of bladder unless the resident or staff is capable of preventing such incontinence from becoming a health hazard; is consistently, uncontrollably incontinent of bowel unless the resident is totally capable of self care; is totally bedfast with limited potential for improvement; needs medical or nursing services on a 24-hour basis; needs restraints; and has a communicable disease or infection unless the resident is receiving medical or drug treatment for the condition.

Medication Management: All personal medication is the property of the resident and no resident shall be required to surrender the right to possess or self-administer any personal medication, except as otherwise specified in the board and care plan of a resident of a facility which is licensed to provide services specifically for the mentally ill. For residents who are unable to self administer medications, medications must be given by

Physical Plant Requirements: Private resident units must be a minimum of 100 square feet and double occupancy resident units must provide a minimum of 60 square feet per resident.

Residents Allowed Per Room: A maximum of two residents is allowed per resident unit. In facilities licensed prior to July 1, 1986, up to four residents are allowed per room, until either a substantial remodeling or a change of ownership

- Bathroom Requirements:** Shared bathrooms are permitted and there must be at least one full bathroom for every six residents.
- Alzheimer's Unit Requirements:** Secured units for the purposes of serving residents with early stage Alzheimer's disease are allowed.
- Staffing Requirements:** Staffing must be adequate to meet residents' needs. For those facilities choosing to provide secured care, at least one trained staff member must be in the secured unit at all times.
- Administrator Education/Training:** Operators must be at least 18 years of age and may meet the minimum educational, training, and experience standards in one of the following ways: completing a Department-approved program or having previous job related experience equivalent to successful completion of such program.
- Staff Education/Training:** Staff shall be given on-the-job training or have related experience in the job assigned to them.
- Continuing Education (CE)** Not specified.
- Entity Approving CE Program:** None
- Medicaid Policy and** A Medicaid waiver covers services in alternative care facilities. Facilities are reimbursed on a flat rate per diem basis.

occurs.

Facility Scope of Care: Nursing services and assistance with activities of daily living may be provided to residents with chronic and stable conditions as determined by a physician or health care practitioner.

Third Party Scope of Care: For residents whose conditions are unstable, either a home health agency must provide services or "other appropriate arrangements" must be made.

Admission/Discharge There are no set discharge or admission requirements; however, each facility must develop written policies for the discharge of clients from the agency. The codes. policies must include, but are not limited to:

change

in a resident's condition (when a resident is no longer chronic and stable); and what constitutes routine, emergency, financial, and premature discharge.

Medication Management: Not specified.

Physical Plant Requirements: The managed residential community where services maximum level of independence. are offered must have private

residential units that

include a full bath, access to facilities, and equipment for the preparation and storage of food. A resident may choose to share a room. Common space in the facility must be sufficient enough to accommodate 50 percent of the residents at any given time.

Bathroom Requirements: Not specified.

Alzheimer's Unit Requirements: Not specified.

Staffing Requirements: Staffing must be adequate to meet residents' needs.

Administrator Education/Training: The supervisor must be a RN with at least two years' experience in nursing, including one year in a home health agency; or a high school diploma with four years' experience, including two in a home health agency. Assisted living aides must have a CNA or CHHA certification.

Staff Education/Training: Assisted living aides must complete 12 hours of continuing education per year.

Continuing Education (CE) Assisted living aides must complete 12 hours of continuing education per year.

Entity Approving CE Program: None

Licensure Term: Assisted Living Agencies

Opening Statement: Regulations have been in effect since January 1, 1998 and are to be interpreted in a manner consistent with a social philosophy of care, which is the promotion of the consumer's independence, privacy, dignity, and the provision of services in a home-like environment. Assisted Living Agency regulations are currently under review to make them more clear and are expected to be finalized sometime in 2001.

Definition: Assisted Living is a fee-based residential arrangement for dependent and elderly adults with disabilities that provides assistance with activities of daily living and other services that promote the consumer's quality of

Facility Scope of Care: The facility may provide residents with assistance with activities of daily living and other services that promote quality of life. Facilities are not intended for persons who require nursing home services that are beyond their capability.

Third Party Scope of Care: Not specified.

Admission/Discharge Facilities are generally prohibited from providing services to individuals who need 24-hour nursing services and whose medical conditions are unstable to the point that they require frequent observation, assessment, and intervention by a licensed professional nurse, including unscheduled nursing services; being bedridden for 14 consecutive days; needing transfer assistance by more than one person and a mechanical device unless special staffing arrangements have been made to ensure safe care and evacuation; having conditions that exceed program capabilities; or presenting a danger to self or others or engage in illegal drug use.

Medication Management: Facilities must comply with the Nurse Practice Act. Residents may receive assistance with self-medication by designated care providers, while administration of medication may only be performed by RNs and Licensed Practical Nurses (LPNs).

Physical Plant Requirements: Individual living units without kitchens must have an appropriately designed central kitchen that is readily accessible to the resident. The central kitchen in the facility must meet "Public Eating Place Regulations."

Residents Allowed Per Room: A maximum of two residents is allowed per resident

Bathroom Requirements: Bathing facilities must be available either in an individual living unit or in an area readily accessible

Alzheimer's Unit Requirements: Not specified.

Staffing Requirements: Each facility must have a director who is responsible for operation of the program. Twenty four-hour on-site or on-call supervision must be provided. Overall staffing must be sufficient in number to meet the needs

Administrator Education/Training: There are no specified training requirements for administrators; however, the Professional Nursing Home Board Regulations supercede this section of the Assisted Living Agency regulations requiring administrators to have a nursing home administrator

Staff Education/Training: Staff must be adequately trained to meet the needs of the resident and the facility must provide and document staff training.

Licensure Term: Community Residence Facilities

Opening Statement: The regulations have been in effect since 1995. A bill calling for new "Assisted Living Residence" regulations was introduced in 2000 and is expected to be passed

Definition: Community Residence Facilities are defined as any facility that provides safe, hygienic sheltered living arrangements for one or more individuals age 18 years or older, who are ambulatory and able to perform the activities of daily living with minimal assistance. This definition includes facilities that provide a sheltered living arrangement for persons who desire or require supervision or assistance within a protective environment because of physical, mental, familial, or social circumstances.

Facility Scope of Care: Not specified.

Third Party Scope of Care: Under certain conditions, residents have the right to arrange directly for medical and personal care with an outside agency.

Admission/Discharge Residents may not be admitted who are in need of professional nursing care, unable to perform ADLs with minimal assistance, incapable of proper judgement and disoriented to person and place.

Medication Management: Residents may store medication and facilities may assist residents with the self-administration of

Physical Plant Requirements: The combined total of all community space provided by in 2001. the community residence facility shall afford at

least

25 square fee of space above the basement per resident.

Residents Allowed Per Room: A maximum of four residents is allowed per resident

Bathroom Requirements: Toilets must be provided in the ratio of one to every 30 residents.

Alzheimer's Unit Requirements: Not specified.

Staffing Requirements: An residence director must be responsible for the daily overall management of the facility. There must be sufficient staff to provide for the welfare, comfort and safety of residents at all times of the day and night. Facilities with 50 or more residents must employ a full-time activities specialist and facilities with 100 or more residents must employ a full-time social worker.

Administrator Education/Training: Not specified.

Staff Education/Training: The residence director must be at least 21 years of age and if there are 30 or more residents in the facility, must have a BA and three years experience in a related

Licensure Term: Assisted Living Facilities

Opening Statement: Regulations were last revised in October 1999.

Definition: Assisted Living Facilities provide housing, food service, and one or more "personal services" (e.g., assistance with activities of daily living and

Facility Scope of Care: Facilities may provide assistance with personal services, including medications. Facilities may hold one of three special licenses: an extended congregate care license allows facilities to provide more extensive ADL assistance and nursing services to frail residents; a limited nursing services license allows certain nursing services defined in the regulations; and a limited mental health license allows facilities to serve low-income chronically mentally ill residents that must have additional staff training and linkages to mental health service providers.

Third Party Scope of Care: Home health agencies may provide services under contract with residents.

Admission/Discharge To be admitted, a resident must be capable of performing activities of daily living with supervision or assistance; not require 24-hour nursing supervision; be free of Stage-two, - three or -four pressure sores; be able to participate in social and leisure activities; be ambulatory; and not display violent behavior. A resident must be discharged if he or she is no longer able to meet the admission criteria or is bedridden for more than seven days.

Medication Management: Unlicensed staff may provide hands-on assistance with self-administered medications. Staff must have four hours of medication training by a RN or registered

Physical Plant Requirements: Private resident units must provide a minimum of 80 square feet of usable floor space and multiple-occupancy resident rooms must provide a minimum of 60 square feet per resident. An additional minimum of 35 square feet of living and dining space

Residents Allowed Per Room: A maximum of four residents is allowed per resident unit. In new or renovated facilities, a maximum of two residents is allowed per resident unit.

Bathroom Requirements: Shared bathrooms are permitted and a facility must provide one toilet and sink per six residents and one

Alzheimer's Unit Requirements: Facilities that advertise special care for persons with Alzheimer's disease or related disorders must have a physical environment that provides for the safety and welfare of residents; offer activities specifically designed for these residents; have 24-hour staffing availability; and employ staff who have completed an eight-hour approved training course and must complete four hours of continuing education per year.

Staffing Requirements: Staffing requirements vary depending upon the numbers of residents (e.g., a total of 375 staff hours would be required each week at a facility with 46-55

Licensure Term: Assisted Living Facilities

Opening Statement: New Assisted Living Facility regulations went into effect in August 1999.

Definition: An Assisted Living Facility consists of a building complex offering dwelling units to individuals and services to allow residents to maintain an independent assisted living lifestyle.

Facility Scope of Care: The facility must provide 24-hour on-site direct staff to meet the needs of the residents; services to assist residents in performing all activities of daily living;

Third Party Scope of Care: The facility may arrange access to ancillary services for medically related care (e.g., physician, podiatrist) and social work services.

Admission/Discharge There are no specific limitations on the admission of residents. A resident must receive a written 14-day notice of discharge if his or her behavior imposes an imminent danger to him/herself or others, or if the facility cannot meet the resident's needs for services.

Medication Management: The facility must have medication management policies related to self-medication and the administration of medication.

Physical Plant Requirements: Facilities must provide each resident an apartment unit with the following: a bathroom, refrigerator, and cooking capacity, including a sink; a unit that is a and nursing assessment, health monitoring, and minimum of 220 square feet, not including the routine nursing tasks. bathroom; a cooking capacity that

may be removed or

disconnected depending on the individual needs of the resident; a separate and complete bathroom with a sink, shower, and toilet; accommodations for the physically challenged and wheelchair-bound persons, as needed; a call system monitored 24 hours per day by staff; and wiring for telephones and televisions.

Residents Allowed Per Room: Not specified.

Alzheimer's Unit Requirements: Not specified.

Staffing Requirements: Licensed staff shall be available seven days a week.

Administrator Education/Training: The administrator or director must have at least two years of experience in a management capacity in the housing, health care services, or personal care industries. The completion of an assisted living facility administrator's course or equivalent is required.

Staff Education/Training: All facility staff must complete orientation and a minimum of six hours annually of regularly scheduled in-service training.

Continuing Education (CE) Not specified.

Licensure Term: Residential and Assisted Living Facilities

Opening Statement: New regulations went into effect in March 2000.

Definition: Residential and Assisted Living Facilities provide 24-hour care for three or more adults who need personal care or assistance and supervision essential for sustaining activities of daily living or for the protection of the individual.

Facility Scope of Care: The facility must supervise residents, provide assistance with activities of daily living and instrumental activities of daily living, and deliver services to meet the needs of residents.

Third Party Scope of Care: Residents are permitted to contract for services with third parties.

Admission/Discharge Residents may not be admitted or retained if they require ongoing skilled nursing, intermediate care, or care not within the legally licensed authority of the facility. In addition, residents who are in need of restraints or have physical, emotional, or social needs not homogenous with the facility's population may not

Medication Management: Staff who attend an assistance with medications course are permitted to assist residents with the self-administration of medication. A nurse is required to check the medication regimen for residents monthly. Staff who attend an extra medications course are permitted under the Nurse Delegation Rule to crush medications and administer peg feeding tubes.

Physical Plant Requirements: Private resident units must be a minimum of 100 square feet and shared resident units must provide a minimum of 80 square feet of floor space per resident.

Residents Allowed Per Room: A maximum of two residents is allowed per resident

Bathroom Requirements: The regulations have very specific ratios for numbers of toilets and bathing facilities per number of residents. One toilet must be provided for every six persons, residents or personnel.

Alzheimer's Unit Requirements: Idaho has fairly extensive requirements for the care of Alzheimer's residents such as the provision of an unrestrictive environment and a supervised life-style

Staffing Requirements: A full-time licensed administrator must ensure that there is sufficient personnel to provide care during all hours as required in each resident's negotiated service plan. Staffing patterns shall be based on resident need rather than the number of residents. In addition, there must be one employee within the facility at all times who has a certification in CPR and an approved

Administrator Education/Training: Administrators must be licensed by the state and must have sufficient physical, emotional and mental

Staff Education/Training: Staff providing unsupervised personal assistance to residents must complete a minimum of eight hours of job-related training.

Continuing Education (CE) Administrators must complete 12 hours of continuing education per year. Staff who provide personal assistance to residents must complete eight hours of continuing education per year.

Entity Approving CE Program: The Board of Examiners of Residential Care Facility Administrators approves courses that are relevant to residential care administration. There is no application process.

Medicaid Policy and A Medicaid state plan service and a Medicaid HCBS waiver reimburses for personal care.

Licensure Term: Assisted Living/Shared Housing Establishments

Opening Statement: The Assisted Living and Shared Housing Establishment Act went into effect in January 2001. The Act created two committees, the Assisted Living and Shared Housing Advisory Board in the Department of Public Health and the Quality of Life Advisory Committee in the Department of Aging. The Act allows two levels of housing: assisted living (more than 12 residents) and shared housing (12 or fewer residents). In the Act, assisted living is recognized as a rightful place in the continuum of care, while also ensuring which is safe, secure, structured but flexible, stress that

those with complex medical needs move to a more

setting where those needs can be met.

are expected to be finalized in early 2001.

free and encourages physical activity. Separate appropriate

Alzheimer's units are permitted in facilities. Regulations

Definition: An Assisted Living Establishment provides community-based residential care for at least three unrelated adults (at least 80 percent of whom are 55 years of age or older) who need assistance with activities of daily living, including personal, supportive and intermittent health-related services available 24 hours per day, if needed, to meet the scheduled and unscheduled needs of a resident. A Shared Housing Establishment provides community-based residential care for 12 or fewer unrelated adults (at least 80 percent of whom are 55 years of age or older) who need assistance with activities of daily living, including housing and personal, supportive, and intermittent health-related services. This care must be available 24 hours per day, if needed, to meet the scheduled and unscheduled needs of a resident.

Facility Scope of Care: Facilities may provide general watchfulness and appropriate action to meet the total needs of residents, exclusive of nursing care.

Third Party Scope of Care: Home health agencies unrelated to the Assisted Living Establishment may provide services under contract with residents.

Admission/Discharge Residents with serious mental or emotional problems or in need of nursing care may not be admitted or

Medication Management: All medications must be self-administered or administered by licensed personnel. Facility staff may give medication reminders and monitor residents to

Physical Plant Requirements: Not finalized.

Residents Allowed Per Room: Not specified.

Bathroom Requirements: Not specified.

Alzheimer's Unit Requirements: A facility must fill out an Alzheimer's Special Care Disclosure Form if they offer care to Alzheimer's residents in a special unit.

Staffing Requirements: A full-time manager must be employed along with sufficient staff in numbers and qualifications. Staff must be on duty all hours of each day to provide services that meet the total needs of the residents. There must be a minimum of one staff member awake, dressed, and on duty at all times in Assisted Living

Administrator Education/Training: The administrator must be a high school graduate or equivalent and at least 18 years of age.

Staff Education/Training: All personnel must have training and/or experience in the job assigned to them. An ongoing in-service training program is required to ensure staff have the necessary skills to perform job duties.

Continuing Education (CE) Not specified.

Entity Approving CE Program: None

Licensure Term: Residential Care Facilities

Opening Statement: The Housing with Services Establishments Act has been in effect since September 1998 and requires any residential care facility or any entity providing assisted living services, but which do not require licensure, to register with the Bureau of Aging and In-Home Service of the Family and Social Services Administration (FSSA) and disclose its name, address, and phone. This is not a certification process, but instead helps the FSSA to learn about the amount and types of facilities in Indiana. Housing with Services Establishments provide sleeping accommodations to at least five residents and offer or provide for a fee: at least one regularly scheduled health related service or at least two regularly scheduled supportive services whether offered or provided directly by the establishment or by another person arranged for by the establishment.

Definition: A Residential Care Facility provides room, food, laundry, and occasional assistance in activities of daily living for residents who need less service than the degree of service provided by a Comprehensive Care Facility (a health facility that provides nursing care, room, food, laundry, administration of medications, special diets and treatments, and that may provide rehabilitative and restorative therapies under the order of an attending physician). There is an overall general supervision of health care, medications, and diets as defined in the written policies of the facility.

Requirements: Facility Scope of Care: Personal care and supervision shall be provided as retained. needed by residents.

Third Party Scope of Care: make sure they follow the directions on the container. Not specified.

Admission/Discharge Facilities must not retain residents who require nursing care.

Establishments.

Requirements:

Medication Management: Medication must be administered by licensed nursing personnel or qualified medication aides. Facilities that administer medication must provide a medicine station for 24-hour distribution. Bedside medications and treatments for self-administration shall be

Physical Plant Requirements: Private resident units must be a minimum of 100 square feet and multiple-occupancy resident units must provide a minimum of 80 square feet per resident.

Residents Allowed Per Room: A maximum of five residents is allowed per resident

Bathroom Requirements: The regulations have very specific ratios for numbers of toilets and bathing facilities per number of residents (e.g., one toilet must be provided for every eight

Alzheimer's Unit Requirements: Recommended/voluntary guidelines ask that if a facility advertises to the public that it is offering a special care unit it must file a disclosure statement that includes information on ownership, management, number of beds in the unit, special staffing requirements, special education/training requirements for staff, and cost of care (e.g., base rate).

Staffing Requirements: At least one employee must be on duty at all times. The facility must provide the number of staff as required to carry out all the functions of the facility. An administrator must be on staff to organize and implement the day-to-day operations of the facility.

Administrator Education/Training: Administrators must either have a baccalaureate or higher degree in any subject and complete a six-month training program; possess an associate degree in long term care, health care administration, or equivalent and complete a six-month training program; or complete a specialized course of study in long term health care administration and a six-month

Staff Education/Training: The facility must provide for organized, ongoing in-service education and training for administrators and staff that includes prevention and control of infection, fire prevention, safety and accident prevention, and the needs of specialized populations

Continuing Education (CE) Administrators must complete 20 hours of continuing education per year.

Licensure Term: Assisted Living Programs

Opening Statement: Regulations were revised slightly in July 2000.

Definition: Assisted Living Programs provide housing with services which may include but are not limited to health-related care, personal care, and assistance with instrumental activities of daily living to six or more tenants in a physical structure which provides a homelike environment. Assisted living also includes encouragement of family involvement, tenant self-direction, and tenant participation in decisions that emphasize choice, dignity, privacy, individuality, shared risk, and independence.

Facility Scope of Care: Facilities may provide assistance with activities of daily living and instrumental activities of daily living. Health-related care may be provided on an intermittent

Third Party Scope of Care: A facility may contract for personal care or health-related services from a certified home health

Admission/Discharge Facilities may not knowingly admit or retain a resident who requires more than part-time or intermittent health-related care; is dangerous to self or others; or is in an acute stage of alcoholism, drug addiction, or

Medication Management: Residents are permitted to self-administer medications. The regulations defer to the Iowa Nurse Practice Act which allows nurses to delegate medication administration to unlicensed staff (intravenous or intramuscular injections are not included in allowable nurse delegation to unlicensed assistive personnel). Medication reminder boxes are permitted in resident

Physical Plant Requirements: Private resident units must be a minimum of 120 square feet and double occupancy resident units must be a minimum of 290 square feet.

Residents Allowed Per Room: A maximum of two residents is allowed per resident

Bathroom Requirements: Not specified.

Alzheimer's Unit Requirements: A facility must be designed to meet the needs of residents with Alzheimer's disease.

Staffing Requirements: A qualified manager must be employed by the facility and sufficiently trained staff must be available at all times to fully meet residents' identified needs.

Administrator Education/Training: The manager must be at least 21 years of age and be adequately trained to carry out duties.

Staff Education/Training: All personnel must be able to implement the programs' accident, fire safety, emergency procedures and assigned tasks.

Continuing Education (CE) Not specified.

Entity Approving CE Program: None

Licensure Term: Assisted Living Communities
Opening Statement: New Assisted Living Community regulations were finalized in November 2000.
Definition: Assisted Living Communities are a series of living units on the same site operated as one business entity to provide services for five or more adults.
Facility Scope of Care: Facilities may provide assistance with activities of daily living and instrumental activities of daily living, three meals a day, scheduled daily social activities and assistance with self-administration of medication.
Third Party Scope of Care: Residents may arrange for additional services under direct contract or arrangement with an outside agent, professional, provider or other individual designated by the client if permitted by the policies of the facility.
Admission/Discharge Residents must be ambulatory or mobile nonambulatory, unless due to a temporary health condition for which health services are being provided and must not be a danger to themselves or others.
Medication Management: Medication administration is not permitted.
Physical Plant Requirements: Private and multiple-occupancy resident units in new facilities must be a minimum of 200 square feet.
Residents Allowed Per Room: A maximum of two residents is allowed per resident unit and only by mutual agreement.
Bathroom Requirements: Each living unit in new facilities must provide a private bathroom equipped with a tub or shower. Shared bathing facilities in new facilities are also permitted at a ratio of one bathing facility per every 5
Alzheimer's Unit Requirements: Not specified.
Staffing Requirements: A designated manager must be present to maintain the daily operations. One awake staff member shall be on site at all times and staffing shall be sufficient in number and qualification to meet the 24-hour scheduled and unscheduled needs of the residents.

Licensure Term: Adult Residential Care Homes/Facilities
Opening Statement: New regulations for adult residential care homes/facilities went into effect on March 31, 1999.
Definition: Adult Residential Care Homes/Facilities are publicly or privately 24-hour operated residences that provide personal assistance, lodging, and meals for compensation to two or more adults who are unrelated to the residence licensee, owner, or director.
Requirements: Facility Scope of Care: Facilities may provide personal

assistance with

activities of daily living and supervision of

Third Party Scope of Care: Residents may provide or arrange for care in the facility. Health-related services above those allowed for by these regulations shall not be arranged for or contracted by a facility.

Admission/Discharge Residents must be discharged if they are a danger to self or others or if the resident is transferred to another institution during which payment is not made to retain their bed at the facility. Facilities may users. accept or retain residents in need of additional care beyond routine personal care provided if the resident can provide or arrange for his/her own care and this care can be provided through appropriate private-duty personnel. Additionally, the level of care required in order to accommodate the resident's additional needs must not amount to continuous nursing care (e.g., does not exceed 90 days).

Medication Management: Staff may supervise the self-administration of prescription and non-prescription medication. This assistance shall be limited to reminders, cueing, opening containers, and pouring medication. Residents may contract with an outside source for medication administration; however, facilities may not in-service education on topics applicable to their assigned duties.

Physical Plant Requirements: Private resident units must be a minimum of 80 square feet and multiple-occupancy resident units must provide a minimum of 60 square feet per resident.

Residents Allowed Per Room: A maximum of two residents is allowed per resident

Bathroom Requirements: Common toilets, lavatories, and bathing facilities are permitted. Facilities must provide public restrooms of sufficient number and location to serve residents and visitors.

Alzheimer's Unit Requirements: If a facility accepts residents with dementia or other residents at risk of wandering, an enclosed area must be provided adjacent to the facility so that the residents may go outside safely.

Staffing Requirements: Facilities must be staffed to properly safeguard the health, safety, and welfare of the residents. At a minimum, a director, designated recreational/activity staff person, and a direct care staff person are required; however, one person may occupy more than

Administrator Education/Training: Administrators must be at least 21 years of age. self-administered medication.

Staff Education/Training: Direct-care workers must participate in in-service training each year in areas relating to: the facility's policies and procedures; emergency and evacuation procedures; residents' rights; procedures and legal requirements concerning the reporting of abuse and critical incidents; resident care services; infection control; and any specialized training to meet residents'

Licensure Term: Assisted Living Facilities/Residential Care Facilities

Opening Statement: Legislation was passed in 1996 to create a new licensure category for "assisted living." New regulations for assisted living facilities, replacing both Boarding and Adult Foster Homes, became effective May 29, 1998. Changes to these regulations are expected

Definition: A Residential Care Facility I (6 or fewer residents) or Residential Care Facility II (7 or more residents) may provide Assisted Living Services, including housing and assistance with activities of daily living and instrumental activities of daily living.

Facility Scope of Care: Assisted living services may include, but are not limited to, personal supervision; protection from environmental hazards; assistance with activities of daily living and instrumental activities of daily living; administration of medications; and nursing services.

Third Party Scope of Care: Assisted living services may be provided indirectly through written or verbal contracts with persons, entities, or agencies.

Admission/Discharge Residents may be discharged if the services required cannot be met by the facility, the resident's intentional behavior results in substantial physical damage to the property, or the resident becomes a direct threat to the health or safety of others.

Medication Management: Administration of medication is permitted and includes reading labels for residents; observing residents taking their medications; checking dosage; removing the prescribed dosage; and the maintenance of a medication record for each resident. Injections may only be administered by licensed staff.

Physical Plant Requirements: Facilities must be designed to meet the special needs of the population served. Private resident units must be a minimum of 100 square feet and shared resident units must provide a minimum of 80 square feet per

Residents Allowed Per Room: A maximum of two residents is allowed per resident

Bathroom Requirements: Shared bathrooms are permitted at a ratio of at least one toilet per six users. Shared bathing facilities are

Alzheimer's Unit Requirements: All facilities with Alzheimer's/Dementia Care Units must offer special weekly activities such as gross motor, self-care, social, outdoor, spiritual, and sensory enhancement activities. The regulations require specific physical plant design for Alzheimer's units. If the facility has an Alzheimer's unit it is required to disclose certain information.

Staffing Requirements: An on-site administrator must be employed by the facility. Facilities with 10 or fewer beds are required to have, at a minimum, one responsible adult present at all times to perform resident care and provide supervision. Facilities with more than 10 beds are required to have at least two responsible adults at all times. The regulations also have specific

Administrator Education/Training: Administrators must be at least 21 years of age. While providers in level I facilities need only to have sufficient education, experience, and training to meet in
2001.
residents' needs; level II administrators must either complete an approved training program or have a nursing home or residential facility administrator

Staff Education/Training: For Level II facilities, Maine requires that staff complete a six-day training course. If staff administers medications, they must complete a 24-hour medications course. Pre-service training is required for staff that work in Alzheimer's or dementia units.

Continuing Education (CE) Administrators must complete 10 hours of continuing education per year in areas related to the care of the population served by the facility.

Entity Approving CE Program: None

Medicaid Policy and Requirements: A Medicaid HCBS waiver and a state plan option cover services in assisted living. Licensure Term: Assisted Living Programs

Opening Statement: The regulations for Assisted Living Programs have been in effect since January 1999. These regulations unit.
also permitted at a ratio of one bathing facility per
repealed all existing licensing requirements for
every 15 users. domiciliary care homes and residential care

homes.

Definition: An Assisted Living Program is a residential- or facility-based program that provides housing and supportive services, supervision, personalized assistance, health-related services, or a combination that meets the needs of residents who are unable to perform, or who need assistance in performing, the activities of daily living, or instrumental activities of

Facility Scope of Care: Facilities may provide one of three levels of care: low, moderate, or high. The levels of care are defined by varying service requirements pertaining to health and wellness, assistance with functioning, assistance with medication and treatment, management of behavioral issues, management of psychological or psychiatric conditions, and social and recreational concerns. If a facility wishes to continue to serve a resident requiring a higher level of care than that for which the facility is licensed, for more than 30 days, the facility must obtain a resident-specific waiver. A waiver requires a showing that the facility can meet the needs of the resident and not jeopardize other residents. Waivers to care for residents at the moderate and high levels are limited to 50 percent of licensed beds. Waivers to exceed the high level are limited to 20 percent of licensed beds up to 20 maximum.

Third Party Scope of Care: Home health agencies may provide services under contract with residents.

Admission/Discharge Facilities may not admit individuals who require more than intermittent nursing care; treatment of stage three or four skin ulcers; ventilator services; skilled monitoring, testing, and aggressive adjustment of medications and treatments where there is the presence of, or risk for, a fluctuating acute condition; monitoring of a chronic medical condition that is not controllable through readily available medications and

Medication Management: Medication may be administered by staff who complete a 16-hour medication administration course. Staff who cue, coach, and monitor residents who self-administer medications with or without assistance must watch a video produced by the Department and complete a test on the video.

Physical Plant Requirements: Private rooms must provide a minimum of 80 square feet of functional space and double occupancy rooms must provide a minimum of 120 square feet per

Residents Allowed Per Room: A maximum of two residents is allowed per resident unit; however, this limit may be waived by the

Bathroom Requirements: Toilets with locks must be provided to residents. Facilities must have a minimum ratio of one toilet to every four residents. Buildings with nine or more residents must have a minimum ratio of one toilet on each floor where a resident is located. There must be a minimum of one bathtub or shower to every eight

Alzheimer's Unit Requirements: Not specified.

Staffing Requirements: An assisted living manager must be on site or available on call. On-site staff must be sufficient in number and qualifications to meet the 24-hour scheduled and daily living, unscheduled needs of the residents. An alternate assisted living manager must be available when the assisted living manager is unavailable.

Administrator Education/Training: The assisted living manager must be at least 21 years of age and possess a high school diploma or

Staff Education/Training: Staff must be at least 21 years of age (unless supervised on site at all times by another staff person who is at least 21 years of age) and must have the ability to provide the services listed for each level of care. Staff providing delegated nursing functions (other than medication administration) must be Certified Nursing Assistants (CNAs).

Continuing Education (CE) Not specified.

Entity Approving CE Program: None

Medicaid Policy and An Medicaid HCBS waiver and a state funded program covers services in assisted living. Participants in the program must be nursing home eligible and must pass a medical rather than functional test (e.g., must need 24-hour-per-day nursing care), so it is expected that many assisted living residents may not be eligible.

operator, and governing body consent

to the resident's continued stay and agree to cooperate in providing the needed level of care. Effective January 31, 2001, all AFC interpretative guidelines have been rescinded, taking consultants back to reviewing and inspecting AFC's based purely on the unit. letter of the rules. CIS determined that these residents. guidelines in many cases changed the essence of

the

Definition: A Home for the Aged is a supervised personal care facility, other than a hotel, adult foster care facility, hospital, nursing home, or county medical care facility that provides room, board, and supervised personal care to 21 or more unrelated, nontransient individuals who are 60 years of age or older. Adult Foster Care homes are residential settings that provide 24-hour personal care, protection, and supervisions for individuals who are developmentally disabled, mentally ill, physically handicapped or aged who cannot live alone but who do not need continuous age; hold a bachelors degree or have equivalent

experience in human services, housing, or nursing
home management; and have administrative
experience, supervisory, and management skills.

Facility Scope of Care: HFA's may provide assistance with activities of daily living. AFC services include supervision, protection, personal care, medication administration, social activities, and assistance with instrumental activities

Third Party Scope of Care: If a hospice agency comes into the facility, it must be available to assess, plan, monitor, direct, and evaluate the resident's care in conjunction with the resident's physician and in cooperation with the facility. Adequate and appropriate care must be provided without jeopardizing other residents' care.

Admission/Discharge rule. Facilities may not admit persons requiring nursing care beyond the services provided by a home health

Medication Management: HFA- Medication management is not addressed in the HFA rules. Common practice derived from the nurse nursing care. practice act include- if the facility decides to administer medication, it must have a safe and sound medication administration system to protect residents from accidents or injuries from improper, inappropriate, or unsafe medication administration. Only licensed personnel can accept verbal medication orders from physicians. LPNs may administer injectible medication and RNs may delegate nursing function (e.g., insulin injections) to unlicensed personnel. Trained, unlicensed personnel may also assist residents who self-administer medication. AFC- A licensee, with a resident's cooperation, shall follow the instructions and recommendations of a resident's physician or other health care professional with regard

Physical Plant Requirements: HFA- Private resident units must be a minimum of 80 square feet for existing buildings and 100 square feet for new construction. Multiple-occupancy resident units must provide a minimum of 70 square feet per resident for existing buildings and 80 square feet per resident for new construction. AFC- A single bedroom must have at least 80 square feet of usable floor space. A multi-bed room must have at least 65 square feet of usable floor space per bed. A maximum of 2 beds are allowed per bedroom unless the facility has been continuously licensed since the effective date of the rules or unless the resident (or the responsible party)

has agreed to reside in the multi-occupancy room, the

home is in compliance with all state fire safety and environmental standards, and the bedroom provides no less than 70 square feet (65 square feet from homes licensed on or before December 31, 1976) of usable floor space per bed.

Residents Allowed Per Room: HFA- A resident room shall have not more than 4 beds. Certain square footage requirements exist based on the number of occupants. AFC- A maximum of 2 beds shall be allowed in any multi-occupancy bedroom except those licensees and homes that were licensed on the effective date of these rules and that have had licenses in continuous effect in which case a maximum of 4 beds shall be allowed. Certain square footage requirements exist based on the number of occupants.

Bathroom Requirements: HFA- One lavatory and water closet for every 8 resident beds per floor. A bathing facility shall be provided for every 15 residents. AFC- A home shall have a minimum of 1 toilet, 1 lavatory, and 1 bathing facility for every 8 occupants of the home. At least 1 toilet and 1 lavatory that are available for resident use shall be provided on each floor that has resident bedrooms.

Alzheimer's Unit Requirements: HFA & AFC- Facilities that advertise or market themselves as providing specialized Alzheimer's care are to provide prospective resident families with a written description of the care and services provided.

Staffing Requirements: HFA- A sufficient number of attendant personnel shall be on duty on each shift to assist residents with their personal care under the direction of the supervisor of resident care. AFC- There must be sufficient direct care staff on duty at all times for the supervision, personal care, and protection of residents and to provide the services specified in the resident's care agreement and assessment plan. In homes with 13 to 20 residents there shall be no less than one staff to 15 residents during waking hours and one staff to 20 residents during normal sleeping hours. For facilities with 12 or fewer residents there will be no less than one staff per 12 residents.

Administrator Education/Training: HFA- Administrators must be competent and at least 21 years of age. AFC- Administrators must have at least one year of experience working with persons who are mentally ill, developmentally disabled, physically handicapped, or aged. Both the licensee of the home and the administrator must complete either 16 hours of training approved by MDCIS or 6 hours at an accredited college or university in an area approved by MDCIS.

Staff Education/Training Requirements: HFA- All staff in supervisory positions must be at least 21 years of age. All staff must go through training to agency or persons with a mental condition that is

learn how to work with the population for which they are disturbing to other residents or personnel. Residents are caring. AFC- The licensee or administrator must

provide in-service training or make training available through other sources for direct care staff in the following areas: reporting requirements, first aid, CPR, personal care, supervision, protection, resident rights, safety and fire prevention, prevention and containment of communicable diseases.

to medications.

Continuing Education (CE) HFA- none. AFC- Both the licensee of the home and the administrator must complete either 16 hours of training approved by MDCIS or 6 hours at an accredited college or university in an area approved by

Licensure Term: Housing with Services Establishments

Opening Statement: In 1995, the legislature separated housing from services, requiring a facility to obtain a home care license in order to provide health-related services (e.g. medication administration). Minnesota then created a registration category called Housing with Services Establishments that applies to facilities that provide sleeping accommodations to residents ages 55 or older and one or more health-related services or two or more supportive services. Minnesota has a number of home health licensure categories, including the "Assisted Living Home Care Provider" category which is most appropriate for this setting.

Definition: Housing with Services Establishments provide sleeping accommodations to one or more adult residents, at least 80 percent of whom are 55 years of age or older. These facilities offer or provide, for a fee, one or more regularly scheduled health-related services or two or more regularly scheduled supportive

Facility Scope of Care: The facility may only provide housing and either food, social services, or transportation to non-medical appointments and arrangements for medical with serious

mental disturbances or who require

must be transferred

health-related services. intensive or 24-hour nursing care

Governor signed into law PA 437 prohibiting MDCIS from ordering the removal of a HFA resident if the resident's family, physician and the facility's owner, operator, and governing body consent to the resident's continued stay and agree to cooperate in providing the needed level of care.

| <u>Licensure Term:</u> | Personal Care Homes |
| <u>Opening Statement:</u> | New regulations for Personal Care Homes went into effect in March 2000. |
| <u>Definition:</u> | Personal Care Homes are licensed facilities that provide assistance to residents in performing one or more of the activities of daily living, including but not limited to bathing, walking, excretory functions, feeding, personal grooming and dressing. |

Facility Scope of Care: Facilities may provide assistance with activities of daily living that may extend beyond providing shelter, food, and laundry. Assistance may include, but is not limited to: bathing, walking, toileting, feeding, personal grooming, dressing, and financial

Third Party Scope of Care: Limited home health services may be provided in

Admission/Discharge Level II facilities may only admit persons who are ambulatory; on a regular diet; continent of bowel and bladder; non-violent to self and others; not in need of care beyond the capabilities of a licensed facility; and free from communicable disease. Residents may require oral medication assistance and/or medication monitoring. Level I facilities may admit persons who are ambulatory; on a therapeutic diet; continent of bowel and bladder (which may include a toilet training program); non-violent to self and others; not in need of care beyond the capabilities of a licensed facility; free from communicable disease; and in need of oral, subcutaneous, or intramuscular prescription medication administration.

Medication Management: Facilities may monitor the self-administration of medication. Only licensed personnel are allowed to administer medication.

Physical Plant Requirements: Private and shared resident units must provide a minimum of 80 square feet per resident.

Residents Allowed Per Room: A maximum of four residents is allowed per resident

Bathroom Requirements: Separate toilet and bathing facilities must be provided on each floor for each sex in the following ratios as a minimum: one bathtub/shower for every 12 or fewer

Alzheimer's Unit Requirements: Only Level I facilities may establish a separate Alzheimer's/Dementia Care Units for no more than 24 residents (more than one unit per licensed facility is allowed). A RN or LPN must be present on all shifts and a minimum of two staff members must be on the unit at all times. Facilities are only permitted to house persons with up to stage II Alzheimer's disease.

Staffing Requirements: A full-time operator must be designated to manage the facility. Detailed staffing ratios apply (e.g., in a Level I facility there must be one attendant per 10 residents from 7:00 a.m. to 3:00 p.m.).

Administrator Education/Training: Operators must be at least 21 years of age and must be able to read and write.

Staff Education/Training: Direct care staff must be at least 18 years of age and shall receive training on a quarterly basis on topics and issues related to the population being served.

Continuing Education (CE) Not specified.

Licensure Term: Residential Care Facilities
Opening Statement: management. Legislation was passed in May 1999 to

revise the

current Residential Care Facilities regulations. In January 2001, emergency regulations for Residential Care Facilities II went into effect, allowing this level of facility to keep residents who are mentally incapable of negotiating a path to safety due to Alzheimer's disease or dementia if they complied with extra facilities. requirements for staff training, physical plant, etc.

Requirements:

Definition:

Residential Care Facilities I and II provide three or more residents with shelter, board, and protective oversight. In addition to these, level II facilities provide supervision and assistance with personal care.

Facility Scope of Care:

Residential Care Facilities I and II may provide shelter, board, protective oversight, and care during short-term illness or recuperation. Residential Care Facilities II may provide additional services such as dietary supervision, personal care assistance, and supervision of health care under the direction of a licensed

Third Party Scope of Care:

Home health services may be provided in facilities.

Admission/Discharge

All residents must be physically and mentally capable of evacuation and must be discharged if their needs cannot be met by the facility. Residents may remain in the facility if they are temporarily incapacitated, for a period not to exceed 45 days. There is a movement in the legislature to allow mentally incapacitated unit. residents to remain in facilities longer, under the residents; and one lavatory and one toilet for every 6 or condition that the facility have higher staff-to-resident fewer residents. ratios.

Medication Management:

Administration of medication by licensed or certified personnel is permitted.

Physical Plant Requirements: Private and shared resident units must provide a minimum of 70 square feet per resident.

Residents Allowed Per Room: A maximum of four residents is allowed per resident

Bathroom Requirements: Shared bathrooms are permitted. One tub or shower must be provided for every 20 residents and one toilet and lavatory must be provided for every six residents.

Alzheimer's Unit Requirements: Not specified.

Staffing Requirements: An administrator must be employed by the facility and one staff member must be on duty at all times. At a minimum, one employee must be on duty for every 40

Administrator Education/Training: The administrator of a level II facility must be a licensed nursing home administrator. In a level I facility, the administrator must either be a licensed nursing home administrator or attend at least one continuing education workshop per year. All administrators must complete a course in medication

Staff Education/Training: Staff who administer medication must be certified as a level I Medication Aide, which requires the completion of a 16-hour approved course.

Continuing Education (CE) Not specified.

Licensure Term: Assisted Living Facilities

Opening Statement: Revisions to the regulations were made in January

Definition: Assisted Living Facilities provide shelter, food and care for remuneration for a period of more than 24 consecutive hours to four or more persons who require or request such services due to age, illness or physical

Facility Scope of Care: The facility may provide personal care, health maintenance activities (i.e., non-complex nursing interventions which can safely be performed according to exact directions), transportation, laundry, housekeeping, financial assistance/management, behavioral management, case management, shopping, beauty/barber, and spiritual services.

Third Party Scope of Care: If residents assume responsibility, they may arrange for care through a licensed home health or hospice agency or appropriate private duty personnel.

Admission/Discharge Residents requiring complex nursing interventions or whose conditions are not stable or predictable will not be admitted, readmitted, or retained by the facility unless the resident has sufficient mental ability to understand the situation; assumes responsibility for arranging for care from a third party; or has care needs that do not compromise the facility operations or create a danger to others in the facility.

Medication Management: Residents may self-administer medications. When medication administration is provided by the facility, it must be administered by licensed staff or medication assistants approved by the Department.

Physical Plant Requirements: In existing facilities, private resident units must be a minimum of 80 square feet and double-occupancy units must provide a minimum of 60 square feet per resident. In new facilities, private resident units must be a minimum of 100 square feet and double-occupancy units must be a minimum of 160

Residents Allowed Per Room: In existing facilities, a maximum of four residents is allowed per resident unit. In new facilities, a maximum of two residents is allowed per resident

Bathroom Requirements: Facilities must provide a bathing facility adjacent to each room or central bathing facilities. In existing facilities, at least one bathing facility must be provided for every 16 residents. In new facilities, one bathing facility must be provided for every eight residents.

Alzheimer's Unit Requirements: Facilities serving special populations must assess each resident to identify his/her abilities and needs, provide specially trained staff, prepare service agreements, and provide a physical environment that conforms to and accommodates the special needs.

Staffing Requirements: The facility must have an administrator who is responsible for the overall management of the facility and who shall ensure staffing appropriate to meet the needs of the residents.

Administrator Education/Training: Not specified.

Staff Education/Training: Direct-care staff must complete an initial orientation and ongoing training.

Continuing Education (CE) All staff must complete at least 12 hours of continuing education per year on topics appropriate to the employee's job duties, including meeting the physical and mental special care needs of residents in the

Licensure Term: Residential Facilities for Groups

Opening Statement: Regulations for Residential Facilities for Groups have been in effect since October 1997 and were revised in square feet. 1999 to meet new state statutes. The regulations establish care categories I and II. Care category I residents are ambulatory and can evacuate with minimal assistance in the event of a fire. Only one wheelchair-bound resident is permitted in unsprinklered facilities in this category. Care category II residents are physically or mentally incapable of unit. evacuation and require the assistance of another

Definition: A Residential Facility for Groups furnishes food, shelter, assistance, and limited supervision to an aged,

Facility Scope of Care: Facilities must provide residents with assistance with Certification activities of daily living and protective supervision as needed. Facilities must also provide nutritious meals and snacks, laundry, and housekeeping and must meet the needs of the residents. Facilities must provide 24-hour supervision.

Third Party Scope of Care: Home health and hospice agencies may provide services under contract with residents and medical professionals. treatment must be provided by medical professionals who are trained to provide that service.

Admission/Discharge: Facilities may not admit or retains persons who are bedfast; require chemical or physical restraints; require confinement in locked quarters; require skilled nursing or other medical supervision on a 24-hour basis; require gastrostomy care; or have complex medical needs or conditions (e.g., colostomy or ileostomy care, use of an indwelling catheter).

Medication Management: infirm, mentally retarded, or disabled person on a Direct care staff may administer medication (except approved injections) upon the completion of an 24-hour basis. training program and passing of an exam.

Physical Plant Requirements: Private resident units must be a minimum of 80 square feet and shared resident units must provide a minimum of 60 square feet of floor space per resident.

Residents Allowed Per Room: A maximum of three residents is allowed per resident

Bathroom Requirements: A toilet and lavatory must be provided for every four residents and a tub or shower must be provided for every six residents.

Alzheimer's Unit Requirements: Eight hours of training is required for staff supervising residents with Alzheimer's. Locked quarters are allowed in Alzheimer's units. In addition, alarms, buzzers, horns, or other audible devices activated when a door is opened are to be installed on all exit doors. At least one member of the staff must be awake and on

Staffing Requirements: An administrator and a sufficient number of caregivers must be employed by the facility. Facilities with more than 20 residents shall ensure that at least one employee is awake and on duty at all times.

Administrator Education/Training: Administrators must be licensed by the Nevada state board of examiners for administrators of facilities for long term care. An administrator for an Alzheimer's facility must have three years experience in caring for residents with Alzheimer's disease or related dementia.

Staff Education/Training: Caregivers must be at least 18 years of age; have

personal qualities enabling them to understand the problems of the aged and disabled; be able to read, write, speak, and understand English; and possess knowledge, skills, and abilities to meet residents'

Continuing Education (CE) All staff must complete eight hours of continuing education per year. Training must be related to the care of the elderly and, depending upon the facility's population, related to specific populations (e.g., dementia-related training for those who supervise persons with Alzheimer's disease).

Licensure Term: Assisted Living Residences/Comprehensive Personal Care Homes and Assisted Living Programs

Opening Statement: New regulations (with no major revisions) went into effect November 1999.

Definition: An Assisted Living Residence provides apartment-style housing and congregate dining and assures that assisted living services are available when needed, for four or more adult persons. There are three categories of assisted living: Assisted Living Residences (new construction), Comprehensive Personal Care Homes (converted/residential boarding home which may not meet all building code requirements) and Assisted Living Programs (services provided).

Facility Scope of Care: Facilities provide a coordinated array of supportive personal and health services 24 hours per day, including assistance with personal care, nursing, pharmacy, dining, activities, recreational, and social work services to meet the individual needs of each

Third Party Scope of Care: Facilities may contract with licensed home health

Admission/Discharge New Jersey has no entry requirements or restrictions. Mandatory discharge is required if a resident requires specialized long term care, such as respirators, ventilators, or severe behavior management. Facilities may specify other discharge requirements, such as if the resident is: bedridden for more than 14 consecutive days; requires 24-hour nursing supervision; is totally dependent on assistance with four or more activities of daily living; or is a danger to self or others, etc.

Medication Management: Staff who have completed a medication aid course and passed a certifying exam are permitted to administer medication to residents under the delegation of an RN. The only injections allowed in this case are predrawn insulin injections.

Physical Plant Requirements: Private resident units must provide a minimum of 150 square feet of clear and usable floor area and semi-private resident units must provide a minimum of 80 square feet of clear floor area per resident.

Residents Allowed Per Room: A maximum of two residents is allowed per resident

Bathroom Requirements: Bathrooms may be shared but a bathroom with a toilet, bathtub/shower, and sink must be located in each resident unit. Additional toilet facilities must be

provided to meet the needs of residents, staff, and

visitors to the facility.

Alzheimer's Unit Requirements: Not specified.

Staffing Requirements: Staffing must be sufficient to meet residents' needs. At least one awake personal care assistant and one additional employee must be on site 24 hours per day. An RN must be available 24 hours per day.

Administrator Education/Training: Administrators must be at least 21 years of age and possess a high school diploma or equivalent. Administrators must also either hold a current New Jersey license as a nursing home administrator, be eligible to take the exam to become a licensed nursing home administrator, or complete an approved training course and examination.

Staff Education/Training: Personal care assistants must either successfully complete an approved nurse aide training course, an approved homemaker/home health aide training program, or other equivalent approved training

Continuing Education (CE) Administrators must complete a minimum of 20 hours of continuing education every two years relating to assisted living concepts and related topics. Personal care assistants must complete at least 20 hours every two years of continuing education in assisted living resident. concepts and related topics including cognitive and physical impairment and dementia. Medication aides must complete an additional 10 hours of continuing education related to medication administration and elderly drug use every two years. agencies.

Licensure Term: Adult Residential Care Facilities

Opening Statement: The regulations became effective April 1997 and were last updated August 31, 2000.

Definition: An Adult Residential Care Facility provides programmatic services, room, board, assistance with one or more activities of daily living, and/or general supervision to two or more adults who have difficulty living independently or managing their own affairs.

Facility Scope of Care: The facility may provide assistance with activities of daily living and periodic professional nursing care for adults with physical or mental disabilities.

Third Party Scope of Care: If a resident is determined to require nursing care, an Individual Service Plan is developed and reviewed by a licensed nurse at least every six months. Home health agencies may offer care as needed for periods of less than 24 hours per day.

Admission/Discharge Facilities may not retain residents requiring continuous nursing care, which may include, but is not limited to, the following conditions: ventilator dependency; stage three or four pressure sores; or any condition requiring either chemical or physical

Medication Management: Licensed health care professionals are responsible for the administration of medications. If a resident gives written consent, trained facility staff may assist a resident with medications.

Physical Plant Requirements: Private resident units must be a minimum of 100 square feet and semi-private resident units must provide a minimum of 80 square feet of floor space per

Residents Allowed Per Room: A maximum of two residents is allowed per resident

Bathroom Requirements: A minimum of one toilet, sink, and bathing unit must be provided for every eight residents.

Alzheimer's Unit Requirements: Not specified. However, in the facility's program description and outline of services, it must be specified that it provides care that meets the needs of the

Staffing Requirements: The minimum staff-to-resident ratio is one staff person to 15 or fewer awake residents. When residents are

Administrator Education/Training: Administrators must be at least 21 years of age, possess management and administrative skills, and have a high school diploma or equivalent.

Staff Education/Training: Direct care staff must be at least 18 years of age and have adequate education, training, or experience to provide for the needs of residents. Staff are required to complete ongoing training programs relating to fire safety; first aid; safe food handling practices;

confidentiality of records and resident information;
infection control; resident rights; reporting

Licensure Term: Assisted Living Programs
Opening Statement: A complete review of the multiple regulations and categories is still underway in New York. The Governor's Program Bill from the 2000 legislative session did not pass, but could be re-introduced in restraints, etc.
Requirements:
Definition: Assisted Living Programs use existing licensure categories. In order to receive state payment under the assisted living program, a provider must be licensed as an adult home or enriched housing program and be licensed as or contract with a certified home health care agency or a long term home health care program. For the purposes of this summary, the definitions of these categories are as follows: 1) Assisted Living Programs combine residential and home care services. They are designed as an alternative to nursing home placement for individuals who have historically been admitted to nursing homes for social rather than medical reasons. Programs must provide or arrange for resident services, including room, board, unit. housekeeping, supervision, personal care, case management, and home health services. 2) Enriched Housing Programs provide long term residential care to five or more adults (mostly age 65 years of age or older), in community integrated settings resembling independent housing units and must provide or arrange for room, board, housekeeping, personal care, sleeping, there must be one direct care worker for 15

and supervision. 3) Adult Care Homes provide or
fewer residents; one direct care worker and one

52

staff person for 16-60 residents; two direct care

workers and one staff person to every 61-120
residents; and at least three direct care workers and
one staff person to every 120 or more residents.

resident needs.

Facility Scope of Care: Adult Care Homes and Enriched Housing Programs can provide supervision, personal care, housekeeping, case management, activities, food service, and assistance with medication.

Third Party Scope of Care: Facilities may contract with a home health agency or a long term home health care program.

Admission/Discharge: Residents who have stable medical conditions and are 2001. capable of self-preservation with assistance may be admitted. Persons may not be admitted who need continuous nursing care; are chronically bedfast or chairfast; or are cognitively, physically, or mentally long term residential care, room, board, housekeeping, personal care, and supervision to five or more adults.

Medication Management: Assistance with self-administration of medication is permitted in facilities. This includes prompting, identifying the medication for the resident, bringing the medication to the resident, opening containers, positioning the resident, and disposing of used

Physical Plant Requirements: Assisted Living Programs must comply with the relevant requirements under which the contracting facility is licensed. Enriched Housing Programs must provide single occupancy units, unless residents want to share. Adult Care Homes may provide either single- or double-occupancy resident units.

Residents Allowed Per Room: A maximum of two residents is allowed per resident

Bathroom Requirements: Enriched Housing Programs must provide a toilet, lavatory, shower, or tub for every three residents. Adult Care Homes must provide one toilet and lavatory for every six residents and one tub/shower for every

Alzheimer's Unit Requirements: Not specified.

Staffing Requirements: Adult Care Homes must have a case manager and have staffing that is sufficient to provide the care needed by residents. The regulations list specific staffing ratios (e.g., one staff person for one to 40 residents during the day, evening, and night).

Administrator Education/Training: Administrators generally must be at least 21 years of age, have a master's degree in social work and one year experience, or a bachelor's degree and three years of acceptable experience. Requirements for administrators varies further based on the number of residents in the facility.

Staff Education/Training: Personal care staff of a home health agency must complete a personal care aide or home health aide training course or other approved examination.

must provide an orientation and in-service training in the characteristics and needs of the population served, resident rights, program rules and regulations, duties and responsibilities of all staff, general and specific responsibilities of the individual being trained, and emergency procedures.

Continuing Education (CE) Administrators not holding a current New York license as a nursing home administrator must complete a minimum of 60 hours of continuing

Licensure Term: Assisted Living Residences

Opening Statement: Legislation passed in July 1995 establishing an umbrella term of "assisted living" that includes "adult care homes" and "Multi-Unit Assisted Housing with

Definition: Assisted Living Residences provide group housing with at least one meal per day and housekeeping. Personal care services are provided by agreement with a licensed home care or hospice agency or by facility staff if licensed as an Adult Care Home. There are two types of assisted living residences: MAHS and Adult Care Homes. Adult Care Homes are further categorized as Family Care (housing two to six residents), Group Homes for Developmentally Disabled Adults (housing two to nine developmentally disabled adult residents), and Adult Care Homes (housing seven or more residents). This summary briefly discusses the differences between the two types of Assisted Living

Requirements: Residences. impaired to the point that the resident's safety or

Facility Scope of Care: In a MAHS, housing and assistance with coordination safety of others is compromised.

of personal and health care services through licensed home care agencies is permitted. In Adult Care Homes, housing, personal care, and some specified

supplies.

unit.
10 residents.

Third Party Scope of Care: In a MAHS, personal care and nursing services are provided through agencies licensed by the Department of Health and Human Services. Hospice care and home health care may be requested by the resident and provided in all assisted living residences. MAHS management must have an arrangement with at least one licensed agency to meet the scheduled needs of residents and residents may choose the agency. Services" (MAHS).

Admission/Discharge MAHS providers are not permitted to care for residents who require (on a consistent basis) 24-hour supervision, have one of a wide variety of specific conditions (e.g., nasogastric tubes), depend on assistance with four or more activities of daily living, or have stage three and four pressure ulcers. In Adult Care Homes, a more mentally or physically dependent

Medication Management: In a MAHS, assistance with self-administration of medications may be provided by appropriately trained staff when delegated by a licensed nurse. Adult Care Homes require that medications be administered by staff whose competency is validated by a RN and who pass a written exam. health care services may be

provided by staff or

through licensed home care agencies. Adult Care

Physical Plant Requirements: Adult Care Homes also have a requirement for 24-hour staff In Adult Care Homes, private resident units must be a monitoring and supervision of residents. minimum of 100 square feet and shared resident units

must provide a minimum of 80 square feet per resident.

Residents Allowed Per Room: In Adult Care Homes, a maximum of four residents is allowed per resident unit.

Bathroom Requirements: Shared bathroom and toilet facilities are permitted in Adult Care Homes as long as one toilet and hand lavatory is provided for every five residents and a tub or shower is provided for every 10 residents.

Alzheimer's Unit Requirements: More detailed rules applying to Alzheimer's units became effective in January 2000 and include: requiring additional staffing and staff training in dementia care, and disclosure statement of policies and special services. These requirements only apply

Staffing Requirements: Staffing requirements in Adult Care Homes vary depending upon the numbers of residents (e.g., facilities with 12 or fewer residents must ensure that

an administrator or supervisor-in-charge is in the facility or within 500 feet of the facility and immediately available). Supervisors of aides are required for facilities with 31+ residents.

Administrators must be on site five days a week for a minimum of 40 hours in facilities with 81+ residents.

Administrator Education/Training: Family Care Home administrators must complete an exam and an approved on the job training program or have appropriate education, training, and experience. Adult Care Home Administrators must be certified by the state which includes specific training.

Staff Education/Training: Staff in Adult Care Homes who perform or directly supervise staff who perform personal care tasks must complete either a 45-hour or 80-hour training program, depending upon the level of care tasks for which they are responsible.

Continuing Education (CE) All administrators must complete 15 hours of continuing education per year and supervisors in charge must complete 12 hours of continuing education per year. Medical technicians and their supervisors must complete six hours of continuing education per year while special care unit staff must complete 12 hours of continuing education per year.

Entity Approving CE Program: There is an internal approval system for adult care facilities with an application process.

Licensure Term: Basic Care Facilities

Opening Statement: North Dakota is conducting pilot projects with the intent of reforming current policy. Because the legislature meets biannually, changes to the regulations are not expected to become effective until

Requirements:Definition: A Basic Care Facility provides room and board to five orpopulation is housed and 24-hour supervision and

more individuals who, because of impaired capacity assistance with scheduled and unscheduled personal care services, but do not require regular facility for independent living, require health, social, or needs is required. A 30-day discharge notice by the personal care services, but do not require regular facility is required in Adult Care Homes and residents 24-hour medical or nursing services. have the right to appeal.

to advertised special care units.

Facility Scope of Care: The facility may provide assistance with activities of daily living defined as prompting, encouragement, or minimal hands-on assistance. It must provide personal care services to assist residents to attain and maintain their highest level of functioning consistent with the resident assessments and care plans.

Third Party Scope of Care: Home health agencies may provide services under contract with residents.

Admission/Discharge Residents must be physically and mentally capable of evacuating with minimal assistance, capable of 2001. independent transfer, may not require physical or chemical restraints, or be dependent in any activities

Medication Management: Unlicensed staff may administer medication except for "as needed" controlled prescription drugs. In Spring 1997, a medication administration bill was passed allowing for the administration of limited medications by unlicensed personnel. This provision requires training and monitoring for those personnel where care is provided by the supervision of a RN.

Physical Plant Requirements: Private resident units must be a minimum of 100 square feet; semi-private resident units must provide a minimum of 80 square feet per resident; and multiple-occupancy resident units must provide a minimum of 70 square feet per resident.

Residents Allowed Per Room: A maximum of four residents is allowed per resident

Bathroom Requirements: Common toilets, lavatories, and bathing facilities are permitted.

Alzheimer's Unit Requirements: Not specified.

Staffing Requirements: Staff must be available 24 hours per day to meet the needs of the residents.

Administrator Education/Training: Not specified.

Staff Education/Training: Personal care aides must have in-service training.

Continuing Education (CE) Administrators must complete at least 12 hours of continuing education per year relating to care and services for residents.

Entity Approving CE Program: None

Contact E-mail: kkimmet@gw.odh.state.oh.us

Licensure Term: Residential Care Facilities

Opening Statement: Residential Care Facilities (formerly known as Rest Homes) regulations were amended in June 1997.

Definition: Residential Care Facilities provide accommodations for 16 or more unrelated individuals; supervision and personal care services for three or more of those individuals who are dependent on the services of others by reason of age or physical or mental impairment; or accommodations for three or more individuals and skilled nursing care services for at

Facility Scope of Care: Facilities provide supervision, personal care services, administer medication, supervise special diets, and perform dressing changes. Facilities may also provide up to 120 days of nursing services on a part-time, intermittent basis.

Third Party Scope of Care: Skilled nursing services may be provided by a licensed hospice agency or certified home health agency.

Admission/Discharge Facilities may admit or retain individuals who require skilled nursing care beyond the supervision of special diets, application of dressings, or administration of medication only if the care is on a part-time/intermittent basis for not more than a total of 120 days in any 12-month period.

Medication Management: Residents must either be capable of self-administering medications or the facility must provide for medication administration by a home health agency, hospice, or qualified staff person (e.g., RN, LPN, and physician). Trained, unlicensed staff may assist with self-administration only if the resident is mentally alert and able to participate in the medication process. Assistance includes reminders, observing, handing medications to the resident, and verifying the resident's name on the label, etc. An RN, LPN, or physician must be on duty when medications are being administered.

Physical Plant Requirements: Private resident units must be a minimum of 100 square feet and multiple-occupancy resident units must provide a minimum of 80 square feet per resident.

Residents Allowed Per Room: A maximum of four residents is allowed per resident

Bathroom Requirements: One toilet, sink, tub/shower is required for every eight residents. Additionally, if there are more than four persons of one sex to be accommodated in one bathroom on a floor, a bathroom must be provided for each sex residing on that floor.

Alzheimer's Unit Requirements: Not specified.

Staffing Requirements: A facility must have an administrator who is responsible for its daily operation. At least one staff member must be on duty at all times and sufficient additional staff members must be present to meet the residents' total care needs. Sufficient nursing staff is required to provide needed skilled nursing care. At night, a staff member may be on call if the facility

Administrator Education/Training: Administrators must be 21 years of age and meet one of the following criteria: be licensed as a nursing home administrator; have 2000 hours of direct operational responsibility; complete 100 credit

hours of post high

school education in the field of gerontology or health care; be a licensed health care professional; or hold a college degree.

Staff Education/Training: Staff members providing personal care services must be at least 16 years of age, have first-aid training and complete a specified training program. All staff must be able to understand and communicate job-related information in English and must be appropriately trained to implement residents' rights.

Continuing Education (CE) Administrators must complete nine hours of continuing education in gerontology, health care, business administration, or residential care

Entity Approving CE Program: None

Licensure Term: Assisted Living Centers

Opening Statement: Regulations for assisted living were revised in June

Definition: An Assisted Living Center is a home or establishment offering, coordinating, or providing services to two or more persons who by choice or functional impairment need or may need assistance with personal care or nursing supervision; intermittent or unscheduled unit.

Facility Scope of Care: Providers may define their scope of services, admission criteria, and the nature of the residents they serve. Facilities may provide assistance with personal care; nursing supervision; intermittent or unscheduled nursing care; medication administration; assistance with cognitive orientation and care or service for Alzheimer's disease and related dementias; and, assistance with transfer or ambulation.
1999.

Third Party Scope of Care: Facilities and/or residents may contract with licensed nursing care; medication assistance; and assistance with transfer and/or ambulation. home health agencies as defined in the facility's description of services.

Admission/Discharge A resident may not be admitted if his/her need for care or services exceeds what the facility can provide; a physician determines that physical or chemical restraints are needed in non-emergency situations; a threat is posed to self or others; or, the facility is unable to meet the resident's needs for privacy or

Medication Management: Medication administration is permitted.

Physical Plant Requirements: Design shall be appropriate to the mental or physical disabilities of the residents served.

Residents Allowed Per Room: A maximum of two residents is allowed per resident

Bathroom Requirements: Shower and bathing facilities must not be occupied by more than one resident at a time and no more than four residents may share a bathing facility unless the Department has approved use by more than four residents based on documentation that the design of the bathing facility is appropriate to the special needs

Alzheimer's Unit Requirements: The facility must disclose whether it has special care units. If it does, it must outline the scope of services provided within the unit and specific staffing to address the needs of the population.

Staffing Requirements: Each facility shall designate an administrator responsible for its operation. Facilities shall provide adequate staffing as necessary to meet the services described in the facility's contract with each resident. Dietary and nurse staffing shall be provided or arranged. CNA's must be under RN supervision.

Administrator Education/Training: An administrator must either hold a nursing home administrator's license, a residential care home administrator's certificate of training, or a nationally recognized assisted living certificate of training and competency approved by the Department.

- Staff Education/Training:** All staff shall be trained to meet the specialized needs of residents. Direct care staff shall be trained in first aid and CPR and be trained at a minimum as a Certified Nurse Aide.
- Continuing Education (CE)** Administrators must complete 16 hours of continuing education per year.
- Entity Approving CE Program:** None
- Medicaid Policy and** No Medicaid waiver at this time; however, proposals to provide Medicaid coverage have been studied.

State: Oregon

Licensure Term: Personal Care Homes

Opening Statement: While there is no Medicaid funding available for Personal Care Homes, Pennsylvania does provide a state supplement to Supplemental Security Income (SSI) for residents in these types of facilities. There is a movement within Pennsylvania to regulate "assisted living," and recommendations have been made to introduce some form of Medicaid funding (not a separate entitlement program) for "assisted living."

Definition: A Personal Care Home provides food, shelter, and personal assistance or supervision for four or more adults who do not need nursing home care. Residents may require assistance or supervision in matters such as dressing, bathing, diet, financial management, evacuation, and medication prescribed for

Facility Scope of Care: The facility may provide assistance with activities of daily living and self-administered medications.

Third Party Scope of Care: Home health is permitted as per physician's orders.

Admission/Discharge: Admission of nonambulatory residents is allowed only if the facility complies with certain additional staffing and physical plant/fire safety requirements. Residents may be discharged if they require a higher level of care or if they become a danger to themselves

Medication Management: Personnel can offer assistance with self-administered medications.

Physical Plant Requirements: Private resident units must be a minimum of 80 square feet and multiple-occupancy resident units must provide a minimum of 60 square feet per resident.

Residents Allowed Per Room: A maximum of four residents is allowed per resident

Bathroom Requirements: Shared bathing and lavatory facilities are permitted.

Alzheimer's Unit Requirements: Secured Alzheimer's units require a waiver approval.

Staffing Requirements: An administrator or designee must be on the premises 24 hours per day. Sufficient staff must be present to provide one hour of personal care per day, 75 percent of which should be given during waking hours, for each resident requiring personal care. At least one

Administrator Education/Training: An administrator must have a high school diploma or GED and have completed a 40-hour approved training

Staff Education/Training: Direct-care staff must complete facility training in specified areas.

Continuing Education (CE) Administrators must complete six hours of continuing education through a recognized training source

Entity Approving CE Program: None

Medicaid Policy and No Medicaid waiver at this time; however, a pilot program is underway in the Philadelphia area where Medicaid waiver money, together with a grant from the Robert Wood Johnson Foundation, is paying for case management and services in personal care homes.

self-medication.

Licensure Term: Residential Care and Assisted Living Facilities

Opening Statement: New regulations went into effect in November 1999.

Definition: A Residential Care and Assisted Living Facility is a residence that provides directly or indirectly personal assistance, lodging, and meals to two or more adults.

Facility Scope of Care: Facilities may provide assistance with activities of daily living; arrange for support services; and monitor residents' recreational, social, and personal activities.

Requirements: Residents requiring any more than temporary nursing or
others.
services must move to a nursing facility.

Third Party Scope of Care: Not specified.

Admission/Discharge Facilities are licensed based on the level of service they are providing. Level F1 facilities may admit residents who are not capable of self-preservation and level F2 facilities may only admit residents who are capable of self-preservation. Admission and residency is limited to persons possessing the physical mobility and judgmental ability to take appropriate action in emergency situations, except in special dementia care unit. units.

Medication Management: Facilities are further classified by the degree to which they manage medications. Level M1 licensed facilities allow licensed staff or unlicensed persons who have completed a state-approved course to administer medications and monitor health indicators. Residents
CPR-
certified staff member must be on the premises at
times.
may receive assistance, limited to reminders, with the all
self-administration of medications in a level M2
facility. Nurse review is necessary under all levels of

Physical Plant Requirements: Private resident units must be a minimum of 100 square feet in area and eight feet wide and semi-private resident units must be a minimum of 160 square feet in area and 10 feet wide.

Residents Allowed Per Room: A maximum of two residents is allowed per resident

Bathroom Requirements: The facility must provide a minimum of one bath per 10 residents and one toilet per eight residents.

Alzheimer's Unit Requirements: If facilities offer to provide or provide care for residents with Alzheimer's disease or other dementia, by means of a special care unit, they must disclose the form of care or treatment provided. The information disclosed must explain the additional care that is provided in philosophy; pre-admission, admission, and discharge; assessment, care planning, and implementation; staffing patterns and training ratios; physical environment; resident activities; family role in care; and, program costs.

Staffing Requirements: Each facility must have a certified administrator. A responsible adult must be on the premises at all times. All facilities must provide staffing which is sufficient to provide the necessary care and services to attain or maintain the highest practicable physical, mental, and psychosocial well being of the residents.

Requirements:
Administrator Education/Training: To be certified, administrators must either complete a 40-hour approved training course, hold an assisted living administrator certification by the American College of Healthcare Administrators, hold a degree in health care administration, or hold a current Rhode Island nursing home administrator's license.

Staff Education/Training: For each job specification, staff must have the appropriate orientation and training.

Continuing Education (CE) Administrators must complete 16 hours of continuing education per year.

Entity Approving CE Program: None

Licensure Term: Community Residential Care Facilities

Opening Statement: Regulations have been in effect since 1991. In 1996, South Carolina began to study assisted living and continues to do so.

Definition: A Community Residential Care Facility offers room and board and a degree of personal assistance for a period of time in excess of 24 consecutive hours for two or more persons. Facilities offer a beneficial or protected environment specifically for the mentally ill or drug addicted or alcoholic, and provide specific procedure or process for the cure or improvement of that disease or condition.

Facility Scope of Care: Facilities may assist residents with activities of daily living, including making appointments and arranging transportation that is necessary in order for the resident to receive the supportive services required in the care plan. Facilities must also be aware of residents' general whereabouts and monitor activities of residents to ensure health, safety, and well-being.

Third Party Scope of Care: Not specified.

Admission/Discharge Facilities may not admit or retain residents who are dangerous to themselves or others, in need of daily attention of a licensed nurse, or require hospital or nursing care.

Medication Management: Medication administration by unlicensed staff is

Physical Plant Requirements: Private resident units must be a minimum of 80 square feet and multiple-occupancy resident units must provide a minimum of 60 square feet per resident.

Residents Allowed Per Room: A maximum of four residents is allowed per resident

Bathroom Requirements: One toilet is required for every eight residents and one tub/shower is required for every 10 residents.

Alzheimer's Unit Requirements: The rules have recently been amended to require certain facilities offering special care units or programs for residents with Alzheimer's disease to disclose the form of care or treatment provided that distinguishes it as being especially suitable for the resident requiring

Staffing Requirements: An administrator must be in charge of all functions and activities of the facility and must be available and responsible within a reasonable time and distance. There must be at least one staff person for every 10 residents during all periods of peak resident activity. During nighttime hours, at least one staff member must be on duty for every 44 residents.

Administrator Education/Training: Administrators must have a high school education or equivalent.

Staff Education/Training: Staff must complete in-service training programs that include training in basic first aid; fire protection; medication administration and management; care of persons who may have contagious, communicable, or sexually transmitted diseases; and licensing regulations. In-service training must be provided on a continuing basis and not less than annually.

Continuing Education (CE) Administrators must complete 12 hours of continuing education per year. Courses must meet domains of practice.

Entity Approving CE Program: The South Carolina Board of Long Term Care Administrators (803/896-4544) approves continuing education courses; however, NAB-approved courses are automatically approved.

Medicaid Policy and No Medicaid waiver at this time; however, pending further review, a Medicaid HCBS waiver is set to be

Licensure Term: Assisted Care Living Facilities

Opening Statement: The regulations have been in effect since April 25,

Definition: An Assisted Care Living Facility is a building,

Environment

Facility Scope of Care: The facility may provide protective care and supervision to residents, assistance with medications, and assistance with all activities of daily living.

Third Party Scope of Care: Skilled nursing services, including part-time or intermittent nursing care, physical, occupational and 1998. speech therapy, and medical social services, may

be

provided in the facility by a licensed home care establishment, complex, or distinct part which accepts organization.

Admission/Discharge Residents may not be admitted or continue to reside in the facility (for more than 21 days) if they are in the Alzheimer's disease; require physical or to self or

residents for domiciliary care and non-medical assistance, and medical assistance as prescribed by the resident's treating physician, limited to the extent the such orders can be provided by a home care latter stages of organization. chemical restraints; pose a serious threat

others; require hypodermoclysis; require nasopharyngeal and tracheotomy suctioning; require initial phases of a regimen involving administration of medical gases; require a nasogastric tube; require arterial blood gas monitoring; or, are unable to communicate their own needs.

Medication Management: Medication must be self-administered or administered by a licensed professional. The facility may assist residents with medication, including reading labels, reminders, and observation.

Physical Plant Requirements: A minimum of 80 square feet of bedroom space must be provided to each resident.

Residents Allowed Per Room: A maximum of two residents is allowed per resident

Bathroom Requirements: Each toilet, lavatory, bath, or shower shall serve no more than six residents.

Alzheimer's Unit Requirements: Facilities are permitted to have secured Alzheimer's units and can retain residents up to the last stages of Alzheimer's disease.

Staffing Requirements: Facilities must employ an administrator, an identified responsible attendant, and a sufficient number of staff to meet the needs, including medical services as prescribed, of the residents. A licensed nurse must be available as needed.

Administrator Education/Training: Administrators must hold a high school diploma or equivalent.

Staff Education/Training: The responsible attendant and direct care staff must be

at least 18 years of age.

Continuing Education (CE) Administrators must complete 12 hours of continuing education per year in courses related to Tennessee rules and regulations, health care management, nutrition and food service, financial management, and

Licensure Term: Assisted Living Facilities
Opening Statement: The Assisted Living Facilities regulations were revised in August 2000.
Definition: Assisted Living Facilities (ALFs) may provide assistance with activities of daily living. There are two types of ALFs. In a type A ALF, a resident must be mentally capable of evacuating the facility unassisted in the event of an emergency; may not require routine attendance during sleeping hours; and must be capable of following directions. In a type B ALF, a resident may require staff assistance to evacuate; be incapable of following directions under emergency conditions; require attendance during sleeping hours; or not be permanently bedfast, but may require assistance in transferring to and from a wheelchair.
Requirements: following directions under emergency conditions; require attendance during sleeping hours; or not be permanently bedfast, but may require assistance in transferring to and from a wheelchair.
Facility Scope of Care: Facilities may provide assistance with activities of daily living, assist with the administration and management of medication, and occasional nursing care within the scope of practice of the licensed
Third Party Scope of Care: If additional services are necessary, residents may contract to have home health services delivered.
Admission/Discharge Facilities must not admit or retain persons whose needs cannot be met by the facility or by contracting with a home health agency.
Medication Management: Residents who choose not to or cannot self-administer medication must have medication administered by a person who: holds a current license to administer medication; holds a current medication aide permit unit. (this person must function under the direct supervision of a licensed nurse on duty or on call); or is an employee of the facility to whom the administration of medication has been delegated by a RN.

Requirements: healthy lifestyles.

Physical Plant Requirements: In type A ALFs, private resident units must be a minimum of 80 square feet and multiple-occupancy resident units must provide a minimum of 60 square feet per resident. In type B ALFs, private resident units must be a minimum of 100 square feet and multiple-occupancy resident units must provide a minimum of 80 square feet per resident. The regulations list extensive fire safety requirements

Residents Allowed Per Room: A maximum of four residents is allowed per resident

Bathroom Requirements: All bedrooms must be served by separate private, connecting, or general toilet rooms for each sex. A minimum of one water closet, lavatory, and bathing unit must be provided on each sleeping floor. One water closet and one lavatory for every six residents and one tub or shower for every ten residents is

Alzheimer's Unit Requirements: Any facility that advertises that it provides specialized care for persons with Alzheimer's disease must provide a disclosure statement that describes the nature of its care or treatment of residents with Alzheimer's disease and must be certified as an Alzheimer's Assisted Living Facility by the State.
employee.

Staffing Requirements: Each facility must designate a manager to have authority over its operation. A facility must have sufficient staff to maintain order, safety, and cleanliness; assist with medication regimens; prepare and service meals; assist with laundry; provide supervision and care to meet basic needs; and, ensure evacuation in case of an emergency. The new regulations do not create specific staff-to-resident ratios; however, facilities must post staffing patterns monthly.

Requirements:

Administrator Education/Training: In small facilities, managers must have a high school diploma or certification of equivalency of graduation. In large facilities, a manager must have: an associate's degree in nursing, health care management, or a related field; a bachelor's degree; or, proof of graduation from an accredited high school or certification of equivalency of graduation and at least one year of experience working in management or in health care industry management.

Staff Education/Training: Full-time facility attendants must be at least 18 years of age or hold a high school diploma. The regulations list specific training requirements for licensed nurses, nurse aides, and medication aides.

Continuing Education (CE) Managers must complete 12 hours of continuing education per year in courses related to at least two of the following areas: resident and provider rights and responsibilities, abuse/neglect, and confidentiality;

basic principles of supervision; skills for working

with residents, families, and other professional service providers; resident characteristics and needs; community resources; accounting and budgeting; first aid; and federal laws, such as the Americans With Disabilities Act and Fair Housing Act.

Licensure Term: Assisted Living Residences

Opening Statement: Regulations for Assisted Living were drafted in 1998 are expected to be implemented soon.

Definition: An Assisted Living Residence is a program which combines housing, health, and supportive services for the support of resident independence and aging in place. Within a home-like setting, a minimum of a private bedroom, private bath, living space, kitchen capacity, and a lockable door are provided.

Facility Scope of Care: The facility must provide services such as, but not limited to 24-hour staff supervision to meet emergencies; scheduled and unscheduled needs; assistance with all personal care activities and instrumental activities of daily living; nursing assessment, health monitoring, routine nursing tasks, and intermittent skilled nursing services; appropriate supervision and services for residents with dementia or related issues requiring ongoing staff support and supervision; and medication management, administration, and assistance. A resident needing skilled nursing care may arrange for that care to be provided in the facility by a licensed nurse as long as it does not interfere with other residents.

Third Party Scope of Care: Facilities must provide access or coordinate access to ancillary services for medically related care, regular maintenance of assistive devices and equipment, barber/beauty services, social/recreational opportunities, hospice, home health, and other services necessary to support the resident.

Admission/Discharge Assessment must be done by an RN within 14 days of move-in. Residents may be discharged if they pose an immediate threat to themselves or others or if their needs cannot be met with available support services and arranged supplemental services. However, if a facility is able to, it may retain residents who need 24-hour on-site nursing care; are bedridden for more than 14 consecutive days; are dependent in four or more activities of daily living; have severe cognitive

Medication Management: If residents are unable to self-administer medications, they may receive assistance with administration of medications from trained facility staff. If staff are deemed competent by the RN, they may administer "as

Physical Plant Requirements: Private resident units must be a minimum of 225 (160 in pre-existing structures) square feet, excluding bathrooms and closet. Each resident unit shall include a private bedroom, private bathroom, living space, kitchen capacity, adequate space for storage, and a lockable door. Units may be shared by resident

Residents Allowed Per Room: Not specified.

Bathroom Requirements: Not specified.

Alzheimer's Unit Requirements: Not specified.

Staffing Requirements: Staff must have access to the director and/or designee at all times. At least one personal care assistant must be on site and available 24 hours per day to meet residents' scheduled and unscheduled needs. On-site trained staff must be available in sufficient number to meet the needs of each resident. A registered or licensed practical nurse must be on site as necessary

Administrator Education/Training: The director must be at least 21 years of age and have demonstrated experience in a gerontological field.

Staff Education/Training: All staff providing personal care must be at least 18 years of age. All staff must be oriented to the principles of assisted living and receive training on an annual basis regarding the provision of services in accordance with the resident-driven values of assisted living. All staff providing personal care must receive training in the provision of personal care activities (e.g., transferring, toileting, infection control, Alzheimer's, and medication assistance and administration).

Continuing Education (CE) Directors/administrators must complete 20 hours of continuing education per year in courses related to assisted living principles and the philosophy and care of the elderly and disabled individuals. All personal care services staff must receive 24 hours of continuing education in courses related to Alzheimer's disease, medication management and administration,

Requirements: behavioral management, documentation, transfers, decline; have stage three or four pressure sores; or, infection control, toileting, bathing, etc. A program have a medically unstable condition.

for approving courses will be set up in 2001.

Entity Approving CE Program: To be determined in 2001.

Licensure Term: Assisted Living Facilities

Opening Statement: The regulations were last updated in February 1996. New emergency regulations for "Assisted Living" have been drafted but not passed by the Board of Social Services. Once the emergency regulations are adopted, the review of the existing "Assisted Living" regulations will continue and is expected to be implemented in

Definition: An Assisted Living Facility is a place, establishment, or institution, public or private, providing care to four or more adults who are aged, infirm, or disabled and who are cared for in a primarily residential setting. Facilities are licensed to provide three levels of care: residential care, regular assisted living and intensive

Facility Scope of Care: The facility may provide assistance with activities of daily living and may restrain residents if necessary to treat medical symptoms (not for discipline or

Third Party Scope of Care: In facilities providing assisted living services, a licensed health care professional may be hired through a contractual agreement with a licensed nurse, home health agency, or private-duty licensed nurse.

Admission/Discharge: The regulations list many specific criteria for residents who may not be admitted or retained, including ventilator dependency; stage three and four pressure ulcers; nasogastric tubes; imminent physical threat or danger to self or others; and continuous licensed

Medication Management: Medication may be administered by staff licensed to administer medications or by staff who have successfully completed a Board of Nursing approved medication training program.

Physical Plant Requirements: Private resident units must be a minimum of 100 square feet and shared resident units must provide a minimum of 80 square feet per resident.

Residents Allowed Per Room: A maximum of four residents is allowed per resident

Bathroom Requirements: Common toilets, lavatory, and bathing facilities are permitted.

needed" medications.

to oversee service plans.

Requirements:

Reimbursement: services.

Alzheimer's Unit Requirements: The regulations cover facilities caring for adults with serious cognitive deficits. At least two direct care staff members must be in the building at all times and doors leading to the outside shall have a system of security monitoring. Free access to an indoor walking corridor or other areas used for walking must be

Staffing Requirements: The facility must employ an administrator and staff sufficient to provide services to maintain the physical, mental, and psychosocial well-being of each resident. If assisted living services are provided, a licensed health care professional must be on site at least quarterly to provide health care oversight. The facility must employ or contract with a licensed nurse or contract with a home health agency to meet residents' skilled nursing needs.

Administrator Education/Training: Administrators in assisted living facilities must be at least 21 years of age and have a high school education or GED and two years post secondary education and one year experience in caring for adults with mental or physical impairments in a group care

facility.

Staff Education/Training: Direct-care staff in facilities with assisted living must complete a CNA or other specified training program.

Continuing Education (CE) Administrators must complete 20 hours of continuing education annually. Direct care staff must complete convenience). eight hours (for residential living settings)

or 12 hours

(for assisted living settings) of continuing education per year, depending upon the level of care at the facility. Courses should be related to the management or operation of an assisted living facility and should be related to the population residing in the facility (e.g., courses related to mental impairments if population is mentally impaired).

Licensure Term: Personal Care Homes

Opening Statement: The regulations were last updated in August 1996.

Definition: A Personal Care Home provides accommodations and personal assistance and supervision for a period of more than 24 hours to four or more persons who may require limited and intermittent nursing care and hospice care. A Residential Board and Care Home (RCB) is similar to a personal care home; however, the primary difference is that RCBs must be part of an independent living community and the amount of nursing care provided is limited.

Facility Scope of Care: The facility may provide assistance with activities of daily living and has the option of providing intermittent nursing services and making

Third Party Scope of Care: If a resident has individual one-on-one needs that are not met by the allowable service provision in the facility, and the resident has medical coverage or financial means that permits accessing additional services, the facility shall seek to arrange for the provision of these services which may include intermittent nursing care or hospice care. The provision of services must not interfere with the provision of services to other residents.

Admission/Discharge Residents in need of extensive or ongoing nursing care or with needs that cannot be met by the facility shall not be admitted or retained (they may be retained only if they are dying). Persons with mental or developmental disabilities may not be admitted to the facility for more than four weeks unless the facility

- Licensure Term:** Residential Care Apartment Complexes

Opening Statement: The Wisconsin statutes were revised in July 1996 to authorize the operation of "assisted living facilities." In September 1997, the name was changed to "residential care apartment complexes" in order to clear up public confusion over certified assisted living facilities and other care facilities using that term in their

Definition: Residential Care Apartment Complexes provide supportive services (e.g., meals, housekeeping, laundry, and access to medical services), personal services/assistance with activities of daily living, and nursing services (e.g., health monitoring, medication administration/management). Facilities may not provide all of these services to five or more adults for

Facility Scope of Care: Facilities must provide services that are sufficient and qualified to meet the care needs identified in the tenant service agreements, to meet unscheduled care needs of its tenants and to make emergency assistance available 24 hours per day. At a minimum, facilities must provide: supportive services, including meals, housekeeping, access to medical services; personal services, including daily assistance with all activities of daily living; and, nursing services, including health monitoring, medication administration and management.

Third Party Scope of Care: A facility may contract for the services it is required to provide and residents may contract for additional services not included in the service agreement, as long as they comply with applicable facility policies and

Admission/Discharge Unless residents are admitted to share an apartment with a competent spouse or other person who has legal responsibility, facilities may not admit persons who: have a court determination of incompetence and are subject to guardianship; have an activated power of attorney for health care; or have been found by a physician or psychologist to be incapable of recognizing danger, summoning assistance, expressing need, or making care decisions. Facilities may discharge residents for the following reasons: if their

Medication Management: Medication administration and management must be performed by or as a delegated task to unlicensed staff, under the supervision of a nurse or pharmacist.

Physical Plant Requirements: All resident units must be independent and must provide a minimum of 250 square feet of interior floor space, excluding closets. Multiple occupancy of an independent apartment shall be limited to a spouse or a roommate chosen at the initiative of the resident. Each unit shall have at a minimum a lockable door, a kitchen, an individual bathroom, a sleeping area, and

Residents Allowed Per Room: A maximum of two residents is allowed per resident

Bathroom Requirements: Not specified.

Alzheimer's Unit Requirements: Not specified.

Staffing Requirements: advertising. Staffing must be adequate to provide all services identified in the residents' service agreements. A designated service manager must be awake and on duty and be able to be present on short notice.

Administrator Education/Training: Service managers must be capable of managing a multi-disciplinary staff.

Staff Education/Training: more than 28 hours per week. Tenant care staff must have documented training or

experience in the needs and techniques for assistance with activities of daily living. All staff shall have training in fire safety, first aid, standard precautions and the facility's emergency plan, and in the facility's policies and procedures relating to tenant rights. Staff providing services to tenants shall have documented training or experience in the physical, functional and psychological characteristics associated with aging, and the purpose and philosophy of assisted living.
