

THE ASSISTED LIVING GOALS

DEADLINE: MARCH 2018

STAFF STABILITY

The more consistent the staff is, the more they understand and are able to effectively respond to each resident's needs – reinforcing the profession's commitment to delivering person-centered care.

TARGET Keep nursing and direct care staff (RNs, LVN/LPNs, aides) turnover below 40%

TRACK LTC Trend Tracker - Turnover and Retention Upload

KEY RESOURCE The Staff Stability Toolkit available through the AHCA/NCAL Bookstore

HOSPITAL READMISSIONS

Hospital readmissions not only have a negative physical, emotional and psychological impact on residents, but also cost government programs like Medicare billions of dollars.

TARGET Safely reduce hospital readmissions within 30 days of hospital discharges by 15%, or achieve (and maintain) a low readmission rate of 5% or less

TRACK LTC Trend Tracker - AL Quality Measures Report

KEY RESOURCE INTERACT for Assisted Living

CUSTOMER SATISFACTION

Research shows that communities with the highest rates of satisfaction perform better in other organizational indicators, including staff stability, staff retention, state surveys, census and cash flow.

TARGET At least 90% of customers (residents and/or family members) are satisfied with their experience

TRACK LTC Trend Tracker - CoreQ satisfaction questions

KEY RESOURCE Turning Complaints into Compliments

ANTIPSYCHOTICS

The use of antipsychotic medications to treat behavior associated with dementia is not supported clinically and is considered off-label by the FDA. Additionally, antipsychotic drugs increase the risk of death, falls with fractures, hospitalizations and other complications resulting in poor health and high costs.

TARGET Safely reduce the off-label use of antipsychotic medications by 15%, or achieve (and maintain) a low off-label usage rate of 5% or less
