

## THE RISING TREND IN QUALITY IMPROVEMENTS

On a national level, the quality of care provided in skilled nursing care centers is growing.

AHCA members have made measurable progress in reaching goals outlined in the AHCA Quality Initiative.

### Safely reduced hospital readmissions

Between 2011 to 2014, 50.5% of member centers achieved the three-year goal of a 15% reduction.

### Safely reduced the off-label use of antipsychotic medications

Between 2011 to 2014, 57.0% of member centers exceeded the initial 15% reduction goal.
